

EVENING NEWS REVIEW.

18TH YEAR. NO. 32.

EAST LIVERPOOL, O., TUESDAY, JULY 23, 1901.

TWO CENTS

NO MORE NON-UNION MEN HAVE REACHED WELLSVILLE

The Situation at the Steel Plant Remains Unchanged From Last Week.

A FLURRY WAS CAUSED

By a Bogus Tip That a Force Was To Be Landed There Last Night.

UNION SENTIMENT IS GROWING

Tenders of Moral And Financial Assistance for the Strikers Are Pouring In—A Striker's Joke Creates Some Diversion.

The attempt to start the Wellsville rolling mill in full yesterday was almost a total failure. No new men were received from out of town and there was a decrease in the number of men from Wellsville. Two of the men received positions in the potteries and two of the others gave up the work.

In the afternoon six of the men, it is reported, responded to Manager Brookman's appeal and started back to the mill. They were headed off at the bridge over Little Yellow creek and three of the number were persuaded to return to their homes. The other three went on to work, according to the mill officials.

The strikers say that only one of the men went to the mill and that he was only let go on his promise to return again when he had seen Mr. Brookman. He said that he had told the manager that he would come up and see him, and he said that he thought that it was only right that he should go up and keep his promise. The men let him go and after a short time he left the mill and went home.

Some of the merchants who talked of refusing to let the strikers have goods on credit are becoming alarmed and have taken a second thought on the matter. They have decided to let the men have the things that they need. They are afraid, no matter how the strike turns out, there will be a Trades and Labor Council formed and in that case the merchants who refuse credit to the men now will be boycotted by all the union laborers of the city.

The idea of founding a union cooperative store is gaining ground. If the strike is prolonged to any extent the scheme will probably be carried out.

Manager D. S. Brookman is very reticent on all subjects pertaining to the disturbance. It is almost impossible to learn anything concerning the situation from him.

The strikers held a meeting yesterday afternoon and decided to hold a picnic at Rock Springs park August 3. The lodges from Lisbon and Irondale will be entertained by the Wellsville lodge.

Great interest centers in the coming meeting of the potters' union. The men have been assured of the help of the potters, and judging from the aid and sympathy already received they are going to get it.

A great many of the strikers were much amused and some of them were alarmed when Daniel Rumbaugh, one of the foremost of the strikers, was seen yesterday coming up the street with his bucket and mill clothes seemingly all ready to go to work. The men who were not in on the joke started after him and he made as if to pull a revolver. Then the men became excited and tried to persuade him not to go to work. All this time the knowing ones were enjoying the joke thoroughly. When he was satisfied he gave in to the persuasion of the union men and returned to Third street. The men who had gone after him had to acknowledge that the joke was on them.

A Pittsburg newspaper man had a tip from his paper last evening that a batch of non-union men would arrive on train No. 301 at midnight. The mill was quiet and everything seemed to prove the truth of the statement. A greater number of men than usual stayed up on this account but were all fooled. No new men were seen. The strikers have begun to think there will be no men brought here.

A man who wishes his name to be withheld, but who is a very close

friend of Manager Brookman, declared last night that he had it straight that the officials have a big card up their sleeve, and that the batch of non-union men would be brought tonight, instead of last night, as stated by the reporter.

Organizer Evans stated this afternoon that there was absolutely not the least change in the situation today.

GENEROUS AID

PROMISED BY LOCAL UNIONS TO STRIKING MILL MEN.

Action in East Liverpool And Wellsville—No Lack of Funds for the Amalgamated.

By the end of the present week it is likely every union organization in East Liverpool will have taken action of some sort with reference to the strike of the Amalgamated men in Wellsville.

True, the central labor organization took action at their last meeting in the shape of a resolution, pledging their moral and financial support, and was one of the first bodies in the country to do so; still the members of the different trade organizations believe they should act by themselves.

Of the pottery workers, No. 24, of Wellsville, is perhaps the most active in behalf of the strikers. Indeed, it has been said that they have worked as hard and accomplished quite as much as the Wellsville Amalgamated trades, and some of the best workers in the Brotherhood are to be found men themselves.

No. 24 is made up of all the potters in this local. At the last meeting of the union action was taken setting apart a portion of each member's earnings for the aid of the strikers, and it is announced that there has been no time limit placed for the donations to cease. Similar action has been taken by the Wellsville bricklayers, and a movement has been started to bring up the question in each of the subordinate unions of railway men in that town.

J. J. Fox, corresponding and financial secretary of the bricklayers' union in this city, was at Wellsville yesterday conferring with the officials of the Amalgamated looking to the passage of a resolution at their next meeting declaring an assessment. Mr. Fox was seen by a reporter upon his return and said:

"The bricklayers have not yet taken action on the matter for the simple reason that no meeting has been held since the men went out. However, the matter will be up on Wednesday night, and I can assure you favorable action will be taken, at that time. I have investigated the ins and outs of the Wellsville situation and am positive a substantial donation at this time would not come amiss. We do not propose to stop half way in this matter either, and I believe I would be safe in saying that action will be taken which will provide a regular assessment each week as long as the strike lasts."

The plumbers have decided to support the strikers also, and although their aid will not be of as substantial a nature as they would like, as they have recently disposed of a little trouble on their own account that played havoc with their treasury, still their declaration will be none the less sincere.

With sentiment such as is heard on every hand among the unionists of this community there will be no excuse for the strikers to resume work because of lack of funds.

NOVEL SUIT FILED

Railroad Company Asked to Pay Insurance Company for a House Burned.

Lisbon, July 23.—(Special)—The Liverpool & London Globe Insurance company has begun a novel suit. It has filed an action to recover \$500 from the Pennsylvania company. In 1900 the insurance company issued a policy of fire insurance for that amount on the residence of Wm. C. McCullough, of Saline township, Jefferson county.

It is claimed that the dwelling house caught fire last spring from sparks from a locomotive and was totally destroyed. The insurance company paid the full amount of insurance and brings action to compel the railroad to reimburse it.

FIGHTERS PAID FOR THEIR FUN

A Long Time Coming, But Acting Mayor McLane Got the Cash.

TROUBLE IN A BARROOM

Occurred Last Thursday—Participants Not Apprehended Until Today—Fined \$9.60 Each—John Cock Charged With Disorderly Conduct.

Acting Mayor McLane held a brief session of court this morning and dispensed justice in a manner quite satisfactory to himself and the city, but perhaps not so to his subjects. Both were accused of fighting and paid over the sum of \$9.60 each. Another man who was engaged in the fight, but who is staying in Chester, will also be tried as soon as he can be located.

The fight took place last Thursday evening in John Kountz's saloon, on Jethro street, and among the "bruisers" were "Kid" O'Hanlon and Frank Ferrall. It was these two who turned over their cash to the mayor this morning.

Ferrall claimed he had not been the aggressor and acted only in self-defense. He admitted, however, that he might have avoided trouble by taking his departure from the bar room, but did not feel disposed to do so. On hearing the lame excuse of the accused, the magistrate adjusted his glasses and struck a telling blow on Ferrall's wallet, extracting therefrom the equivalent of \$5 and costs.

O'Hanlon also averred that he had no hand in the fight other than as peacemaker. The court did not consider that the accused was much of a success at the peace-making business and fined him \$5 and costs for not being a more practical man.

Several others were in the saloon

at the time of the rumpus and one man is said to have received a severe beating. The belligerents dispersed before the officers reached the scene, but on information concerning the affair which reached the mayor's office, Chief Thompson preferred charges against O'Hanlon and Ferrall.

John Cock, a printer in a local pottery, who resides on West Market street, was arrested this morning by Officer Mahoney on a warrant charging him with disorderly conduct. Information filed with Chief Thompson by several residents of California Hollow led to Cock's arrest. It is alleged that the man abused his boy yesterday afternoon by beating him with his fists and choking him. The affair took place in Croxall's field.

When brought before Acting Mayor McLane the accused pleaded not guilty to disorderly conduct. He said his boy had run away from his work and that he had simply given the lad a whipping. Cock denied that he had been inhuman in chastising his son and claimed that while he was supposed to be choking him he was only holding the boy by the neck to prevent him from running away. A trial will be held tomorrow afternoon.

MOTHER AND DAUGHTER

Engage in Dispute Over the Possession of a Three-Year-Old Child.

A mother and daughter are in dispute in a Salem court over the possession of a 3-year-old daughter of Mrs. Newton Ingledue, of Salem. The mother is Mrs. Emma Senheiser, of Franklin Square, and it seems that she has been caring for the child which, it is said, was born to her daughter before her marriage. Recently the Ingledues made an effort to get possession of it.

Mrs. Senheiser objected, it is said, on the grounds that they were neither able nor fit to care for it. The mother and daughter fought over the possession of the little one, each obtaining possession of it in time until the daughter finally swore out a warrant, charging her mother with unlawful possession of her three-year-old daughter, Hazel.

Among the Rivermen. The marks at the wharf this morning registered 4 feet and falling. The Bessie Smith went down last night and the Kanawha will go down to-night. The ferry boat Emily, of Pittsburgh, tied up at the wharf this morning. The boat is on its way to Wheeling.

REMEDY WANTED FOR A NUISANCE

Citizens Indignant at the Manner In Which Many Streets Are Obstructed.

ORDINANCES ARE STRICT

But They Appear to Have Fallen Into Innocuous Desuetude—Teamsters Find It Necessary to Clear the Way to Get Vehicles Through.

The manner in which the city streets are being obstructed by building materials, vehicles and rubbish is exciting widespread comment, and the fact that the practice has steadily grown worse recently, has caused a number of prominent residents to investigate with a view to stopping the nuisance.

Scarcely a street in the city is entirely free from obstructions of some sort. In many cases it is almost impossible to drive through some of the principal thoroughfares after nightfall. This morning in an uptown alley within the space of a square nine wagons and other vehicles were counted, and so little attention was paid to where they were left standing that dairymen and drivers of grocery wagons were compelled to alight from their rigs and move the wagons out of the way.

Section 105 of the city ordinances makes it the duty of the city commissioner to see to it that the streets are clean, free and unobstructed at all times. The ordinance reads as follows:

"Section 105—The city commissioner shall have regular charge and supervision of streets, alleys and public ways. He shall superintend the cleaning, repairing and sprucing of the streets, alleys and market places, commons, bridges and culverts of the city, but subject to such rules, regulations and directions as the council may from time to time prescribe."

Several persons have received hard falls because of the fact that building materials have been allowed to remain on the sidewalks in such quantities that pedestrians experience great difficulty in picking their way through even in broad daylight. The ordinance is very plain on this subject, and while it does not fix a limit in which the streets may remain in cases where new buildings are being erected, it is hardly probable that they can remain so all summer, as is known to be the case in many instances.

Sections 319 and 320 read as follows:

"When any person shall be about to erect or repair any house or other structure in this city it shall be lawful for such person to place in the street immediately in front of the lot and upon the same side of the street on which such building is to be erected or repaired, any building or other materials necessary to be used in the erections or repairs of the aforesaid; provided, that no sidewalks, pavement or gutter nor more than three-fifths of the width of the street shall be obstructed thereby, and no person or persons shall place or cause to remain, any such material as is herein described upon any of the streets of this city, except within the provisions and limits herein set forth."

"No person having charge of any wagon or other vehicle shall be allowed to obstruct therewith the free passage of any of the streets, alleys or public grounds of this city."

For the violation of the provisions of the foregoing ordinances a penalty of from \$1 to \$50 is fixed.

STATIONARY ENGINEERS

Flourishing New Lodge Installed at Wellsville—Dillonvale Next.

State Deputy R. G. Ingleson, assisted by State Secretary R. A. Orin and other members of the local branch of National Association of Stationary Engineers, instituted a new lodge at Wellsville on Saturday night.

The new branch starts off with a good list of charter members and their success is assured.

The officers elected are: Past president, Charles Ewing; president, A. W. Phillips; vice president, Geo. D. Dickey; recording and corresponding secretary, G. H. McBane; treasurer, Jacob Ridinger; financial secretary, Lee W. Glass; conductor, Robert Ralston; doorkeeper, A. Deemer; trustees, Thomas Thompson, F. E. Smith and Jacob Brooks; representative to

HARD BLOW FROM A BOARD HURLED BY A CIRCULAR SAW

Rochester convention, A. W. Phillips; alternate, R. B. Ralston.

No. 41 has the distinction of having aided in the institution of more subordinate associations than any other in the county.

On Saturday evening, July 27, a lodge of the N. A. S. E. will be instituted at Dillonvale. The local branch will do the work, and it is stated some of the state officers will be present.

ATTACHED THE GOODS

D. E. McNicol Brings Suit Against T. F. Anderson.

Defendant Occupied an Office Room Owned By Plaintiff, Who Claims \$40.62 for Rent.

D. E. McNicol brought suit in attachment against T. F. Anderson in Justice McCarron's court late this afternoon for \$40.62, which is claimed due for rent. The defendant, who is president of the American Sewer Pipe company, occupied an office room in the Syndicate building on Sixth street, which is owned by McNicol. At noon today Anderson moved his effects to the East End, and, it is alleged, he neglected to pay his rent or give any notice of his intention of leaving.

Among the office supplies was a large safe. Constable Powell left for the East End as soon as the necessary papers could be served for the purpose of attaching the goods and having them brought back.

SUFFERED FROM HEAT

Extra Run on the Ice Market Yesterday Caused Many Families Great Inconvenience.

Many families in the city suffered greatly from the heat yesterday and ice wagons were kept on the go until late last night. A number of persons, who had been neglecting their supply of the frozen liquid, owing to the temperate climate of the few days back, were caught in a bad fix when Old Sol began to get in his work yesterday morning.

Scores of the regular customers of the ice companies did not receive their supply until late in the day, as the wagons were unable to fill the many orders they received and make their rounds on the usual schedule time.

CLERKS VS. POTTERS

Line-Up for the Interesting Game to Be Played This Evening.

The line-up for the game to be played by the clerks versus the K. T. & K. team at Rock Springs tonight is as follows:

Clerks.....K. T. & K.
O'Hanlon.....Catcher.....Booth
Maley.....Pitcher.....H. Lowe
Fuller.....Short.....Cowey
Dawson.....First.....Wines
Wolf.....Second.....Jones
Lewis.....Third.....Winters
Oliver.....Left.....Hunter
Stuckrath.....Center.....R. Lowe
Steinfeld.....Right.....Cowey

THROWN FROM A WHEEL

A Warren Youth Nearly Killed While Cycling Near Salem.

Salem, July 23.—George Coale, of Warren, about 18 years of age, was the victim of a serious accident in the city Sunday afternoon. By the breaking of the handle bars on his bicycle while riding down the hill in front of the residence of John Tescher, in the Ellsworth road, he was thrown to the ground and rendered unconscious.

His injuries were at first thought to be of a dangerous character, but on Monday his condition seemed to indicate that he would pull through.

Lightning Burns a Barn.

Columbiana, July 23.—A large barn on the farm of Stillman Coy, three miles north of Columbiana, was struck by lightning and totally destroyed by fire at 7 o'clock yesterday morning. No live stock was lost, but the grain and hay were destroyed.

Hit By a Ball Bat

A small son of William Pilgrim was accidentally hit on the head with a baseball bat while playing in the alley below Fourth street. The boy was not badly hurt, and is suffering no inconvenience other than a large lump.

Martin Dickey Rendered Unconscious and Seriously Hurt at the Flint Mill.

VERY PECULIAR ACCIDENT

Which Broke the Man's Ribs and Gave Him an Ugly Gash on the Body.

HE IS EXPECTED TO RECOVER

Although the Full Extent of His Injuries Has Not Been Determined. An Exceedingly Narrow Escape From Instant Death.

Martin Dickey, of Helena, was perhaps fatally injured at the East End flint mill yesterday afternoon. His escape from instant death was very narrow. A gash several inches in length was cut across his stomach, and one rib was broken.

Mr. Dickey is a carpenter. He was working near a large cylinder rip saw. An oak board, 15 feet in length, which was lying near the saw on the opposite side, in some way came in contact with the cylindrical tool, which was turning at lightning speed. The board was thrown over the saw with terrific force and Dickey barely had time to turn to one side when the board struck him, knocking him off his feet and inflicting the wounds. His physician states that if the board had struck him fair in the pit of the stomach death would have been almost instantaneous. His quick turn sideways saved him.

EVENING NEWS REVIEW.

18TH YEAR. NO. 32.

EAST LIVERPOOL, O., TUESDAY, JULY 23, 1901.

TWO CENTS

NO MORE NON-UNION MEN HAVE REACHED WELLSVILLE

The Situation at the Steel Plant Remains Unchanged From Last Week.

A FLURRY WAS CAUSED

By a Bogus Tip That a Force Was To Be Landed There Last Night.

UNION SENTIMENT IS GROWING

Tenders of Moral And Financial Assistance for the Strikers Are Pouring In—A Striker's Joke Creates Some Diversion.

THROWN FROM A WHEEL

A Warren Youth Nearly Killed While Cycling Near Salem.

Salem, July 23.—George Coale, of Warren, about 18 years of age, was the victim of a serious accident in the city Sunday afternoon. By the breaking of the handle bars on his bicycle while riding down the hill in front of the residence of John Tescher, in the Ellsworth road, he was thrown to the ground and rendered unconscious.

His injuries were at first thought to be of a dangerous character, but on Monday his condition seemed to indicate that he would pull through.

LIGHTNING BURNS A BARN.

Columbiana, July 23.—A large barn on the farm of Stillman Coy, three miles north of Columbiana, was struck by lightning and totally destroyed by fire at 7 o'clock yesterday morning. No live stock was lost, but the grain and hay were destroyed.

Hit By a Ball Bat—A small son of William Pilgrim was accidentally hit on the head with a base ball bat while playing in the alley below Fourth street. The boy was not badly hurt, and is suffering no inconvenience other than a large lump.

Martin Dickey Rendered Unconscious and Seriously Hurt at the Flint Mill.

VERY PECULIAR ACCIDENT

Which Broke the Man's Ribs and Gave Him an Ugly Gash on the Body.

HE IS EXPECTED TO RECOVER

Although the Full Extent of His Injuries Has Not Been Determined, An Exceedingly Narrow Escape From Instant Death.

Martin Dickey, of Helena, was perhaps fatally injured at the East End flint mill yesterday afternoon. His escape from instant death was very narrow. A gash several inches in length was cut across his stomach, and one rib was broken.

Dickey is a carpenter. He was working near a large cylinder rip saw. An oak board, 15 feet in length, which was lying near the saw on the opposite side, in some way came in contact with the cylindrical tool, which was turning at lightning speed. The board was thrown over the saw with terrific force and Dickey barely had time to turn to one side when the board struck him, knocking him off his feet and inflicting the wounds. His physician states that if the board had struck him fair in the pit of the stomach death would have been almost instantaneous. His quick turn sideways saved him.

Dickey was rendered unconscious by the force of the blow. The wound inflicted on the abdomen was not deep, being more in the form of a bruise than a cut.

Dr. W. E. Mowen was summoned and the injured man was resuscitated, after which he was removed to his home in Helena, where his wounds were dressed. He rested comparatively well during the night and his condition was unchanged this morning. It is impossible as yet to determine to what extent Mr. Dickey was injured internally, or what the result of the accident may be. It is thought that he will recover.

Mr. Dickey is well known, having resided in the East End for several years.

DRUNKEN ROWDIES

Figured in a Midnight Carousal. Free-for-All Fight Almost Resulted.

A midnight carousal took place at the corner of Mulberry and Center alleys, in the rear of Jack Robinson's saloon last night, which aroused many neighboring residents and promised for a time to assume serious proportions.

Several of the rowdies who composed the gang attempted to get into Robinson's saloon after the closing hour, and on being refused went to the alley in the rear, where they began cursing in loud tones. One or two of the more sober men attempted to quiet the disturbance and almost precipitated a fight by so doing. Officers Stafford and Aufderheide appeared on the scene just in time to prevent trouble and the rowdies took to their heels.

CAUSED TERROR

A Dog on Second Street Created Alarm Among Residents.

A dog on Second street last night, supposed to have been mad, terrorized many of the residents until almost morning. The police are looking for the animal.

No Truth in It.

The report that Ceon Bros.' store on Sixth street had been broken into by thieves Sunday night is denied by the proprietors of the firm. The police say the story was started by an unreliable reporter.

Returned to Pennsylvania.

Mrs. Laura Camphouse, Miss Eva Iams and Samuel Reynolds returned to their homes in Kensington, Pa., today, after a visit with Miss Jennie Swetnam.

News Review "Wants" bring quick results.

EAST END**LOST MUCH BLOOD**

MAN NEARLY DIED FROM HAVING TEETH PULLED.

Joseph McKinnon, of Ohio Avenue, Had a Very Narrow Escape.

Joseph McKinnon, of Ohio avenue, came near bleeding to death last evening as the result of an experience in the dentist's chair yesterday afternoon. Four teeth were extracted from the lower jaw and in some way an artery at the base of the tongue was severed.

The gum had been deadened with cocaine, and the blood did not start to flow until after Mr. McKinnon had gone to his home and the effects of the drug had worn off. Late in the evening the blood started to spurt from the artery and all attempts to stay the flow were unavailing.

A physician was summoned and worked with the wound for a considerable length of time before he finally succeeded in stopping the flow. More than a quart of blood flowed from the wound before it was stopped, and Mr. McKinnon is very weak as a result.

BADLY SHAKEN UP

Charles Reed Takes a Header While Riding on His Bicycle.

Charles Reed received a severe shaking up as a result of a header from his bicycle last evening. He was coasting down Dry Run hill when the chain broke, thus throwing off the brake and his wheel was running at a terrific speed when he struck the corner of the basement at Dry Run bridge. He alighted quite a distance from the wheel, but fortunately was not injured beyond a few bruises and general shaking up. The front wheel of his bicycle was smashed to pieces.

Social at Dry Run.

The Sunday school scholars at Neville Institute have made extensive preparations for a festival to be held at Dry Run this evening. They expect to make the affair one of the most successful socials ever held in Klondike.

EAST END AFFAIRS.

Dr. F. F. Davis is confined to his bed with sickness.

Miss Hannah Irwin, of Ohioville, Pa., was visiting friends in the East End yesterday afternoon.

James Tompkinson has moved from Helena to a new residence recently erected on Calcutta road.

Charles O'Neill, of Louisa, Ky., is visiting friends at Chaffinville. He is seeking a location and will probably move his family to the suburb soon.

Mrs. Ethel Wilkey, of Ohio avenue, left this morning for Massillon, where she will join a party of friends en route to the Pan-American exposition.

George Meyers, of Ohio avenue, is suffering from the effects of an overdose of cocaine administered while having teeth extracted yesterday. His condition is not serious.

Frank T. Searight, of Cleveland, is spending a few days visiting at the home of his parents, Mr. and Mrs. Archie Searight, of Pennsylvania avenue. Mr. Searight has just returned from a visit to the Pan-American exposition.

Mrs. Blanche Kennedy and her son Frank have returned to the East End after a two weeks' visit with friends at Sistersville, W. Va. They are visiting at the home of Mr. and Mrs. W. J. Day. They will leave tomorrow morning for their home at Corydon, Pa.

Thinks It Her Son's Body.

Steubenville, July 23.—Mrs. Edward Simpson, of South Sixth street, believes, from the description of the body found at Wellsburg, that it is that of her son, Edward Campbell, 17 years old. Simpson is her second husband. He has gone to New Cumberland to investigate. Young Campbell has been missing for a week.

Beware of Ointments for Catarrh that Contain Mercury

as mercury will quickly destroy the sense of smell and completely paralyze the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, made by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimony by all Druggists, 75c. per bottle. Hall's Family Pills are the best.

Excursion to Chicago via Penna Lines.

July 24th, 25th and 26th, excursion tickets to Chicago, a round International Convention Baptist, Young People's Union of America, will be sold via Pennsylvania Lines. For particulars see Ticket Agents.

32-H-S-26

OPPOSED TO TREATING

Members of Knights of Columbus at Put-in-Bay Denounce the Practice as Vile.

Put-in-Bay, O., July 23.—The prettiest ball of the season here was given by the Knights of Columbus. The mammoth dining room of the hotel, covering a half acre of space, was transformed into a fairyland for the occasion. Strobel's band of Toledo, and a military band and orchestra furnished music for the dance numbers alternately. Punch was served to the knights between numbers.

At a session the following resolution was adopted by a rising vote of the knights and ladies present, amid great enthusiasm, the ladies greeting the adoption of the resolution with waving of handkerchiefs:

"Resolved that we, Knights of Columbus assembled from various states of the middle west, unanimously endorse the sentiment of 'No treating.' Further, we recommend to our respective state councils and to the national council the adoption of a rule of the order, forbidding the vile saloon treating habit."

RUNAWAY CARS

Caused Considerable Damage And Almost Killed Two Children at Steubenville.

Steubenville, July 23.—While a local yard engine was switching cars yesterday on the main track of the W. & L. E., near the passenger station, a coupling broke, allowing three cars to tear down the grade at a lively rate. At Washington street the block was encountered and torn out of place, the three cars continuing across the pavement and street, tearing up the bricks and earth.

On the north side of the street the end car mounted the steep curve and collided with a tree, snapping it off near the pavement and throwing it against the residence of John Miller.

The tree stopped the runaway cars, but in its fall it tore out part of the wall and steps leading to the house. Two children narrowly escaped being struck.

YOUNG LADY'S WHIP

Applied to a Carrollton Man Who Had Written a Piece About Her.

Carrollton, July 23.—Miss Edith Kirby, a handsome young social leader who goes in for athletic sports, horsewhipped Captain Harry Walker Kirby, a relative, in front of the post-office at La Martine, last evening.

Kirby is prominent in county politics and a writer on one of the local papers. In an article he characterized Miss Kirby as "a female noted for devilishness."

The young lady is a daughter of Joseph Kirby, postmaster at La Martine, a brother of T. M. Kirby, who is a member of the county executive committee.

PICKERELL HONORED

The Consul at the Azores, a Youngstown Man, Represents King Edward.

Warren, July 23.—George H. Pickrell, consul at St. Michaels, Azores Islands, has been appointed as the representative of King Edward during the absence of the English consul. Mr. Pickrell has been granted permission by this government, so he is now American consul and acting consul for England, Norway and Sweden.

There were 28 consuls at St. Michaels, so the honor is of some importance. Mr. Pickrell was a Youngstown boy who married Miss Nellie Darling of this city.

PULLED HER OWN TOOTH

And May Lose Her Life as the Result of Hemorrhages—Peculiar Case.

Beloit, July 23.—Mrs. John Kaufman, who resides near this town, is in a very critical condition from the after results of pulling a tooth, which operation she performed herself on last Friday. Soon after the tooth was extracted hemorrhages set in and have not, up to the present time, yielded to treatment.

It is estimated that fully two quarts of blood have issued from the lacerated gums and the woman is prostrated from the loss. But little encouragement is given by the physicians for her recovery. It is a very peculiar and unusual case.

New Marshal at Sebring.

Sebring, July 23.—Hampson Beatty has been appointed temporarily as marshal of Sebring to fill the vacancy caused by the resignation of J. Brown. Beatty is known as the strong man and gained fame by holding out a watch at arm's length for 25 minutes.

GAUCH FISH WHILE ASLEEP

Man With a Hooked Arm Remarkably Successful as a Fisherman.

Delaware, July 23.—The prize fish story of the season comes from the western part of the county along the banks of the historic Scioto. The tale is remarkable, not from the number of fish caught, but because of the peculiar method of the catch. James Snook, the hero of the episode, resides near the river. Several years ago he met with an unfortunate accident which necessitated the amputation of his hand at the wrist. For the sake of convenience in use, and perhaps as an additional means of defense he wears a sharp steel hook as a substitute for the lost hand.

During the late heated spell it has been his custom to repair to the river in the hot afternoons, where he keeps a small boat, and where he would fish or read away the time. Yesterday he went to the river as usual, and launching his boat paddled quietly under the shade of one of the large trees which line the bank of the stream, and reclining in the bow of the boat began to read. Drowsiness overtook him and he fell asleep. In some way his arm which wears the hook fell into the water over the gunwale of the boat. Snook does not know how long he slept but was awakened by something shaking his arm. He was startled by a great splashing in the water.

Drawing his arm from the water he was surprised to find a four pound bass securely hooked at the end. Examination disclosed the fact that a minnow had in some way caught itself on the sharp point and the self-haited hook had proved the undoing of the bass.

ALMOST DROWNED

Salem Man Arrested As He Was Going Down for the Third Time.

Salem, July 23.—Harry Appel, an employee of the pottery, was almost drowned in Tolerton's pond Sunday afternoon. While swimming near the breast of the dam he was attacked with cramps. As he was going down the second time, Jack McGlynn, who was on the toboggan slide, hurried to Appel's assistance, catching him just as he was going down the third time.

Appel, who was nearly unconscious, was carried to the shore on McGlynn's back.

FATALLY BITTEN

A Child at Wintersville the Victim of a Vicious Dog.

Steubenville, July 23.—Grace, the five-year-old daughter of William Howell, of Wintersville, was set on by a vicious Shepherd dog at the farm of Robert Thompson, near that town, and so badly bitten she is dying. The child's face was terribly lacerated before she was rescued.

FIRM FOUNDATION

Nothing Can Undermine It in East Liverpool.

People are sometimes slow to recognize true merit and they cannot be blamed, for so many in the past have been humbugged. The experience of hundreds of East Liverpool residents expressed publicly through newspapers and other sources, places Doan's Kidney Pills on a firm foundation.

Mr. C. McLean, of 187 Church alley, who is employed in the East Liverpool Pottery company, says: "I had muscular rheumatism for three years in my back and kidneys. It caused much pain and suffering, the last years being the worst. I had a steady aching pain in my kidneys; extreme weakness in the muscles of the back; could not rest at night except lying flat on my back, and there was urinary weakness accompanying it. Although I had many bad attacks and used many different medicines I never obtained any relief. The worst attack I ever had and which completely used me up, occurred just before I used Doan's Kidney Pills. Not having much faith left in medicines I was rather skeptical when I was recommended to try them, but got so bad that I had to get something, so I went for a box to the W. & W. pharmacy. They went direct to the kidneys and acted on the very fountain head of all the trouble, relieving me in a very short time."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doans—and take no other.

Why She Wanted It.

Mr. Bowers—I don't see why you want to spend money for a new thermometer when we have a half dozen already.

Mr. Bowers—But this one has a barometer, and barometers are so handy. See, it says "rain," and just look how it is raining!—Puck.

A general committee for the direction

Ladies,**This**

week we begin cleaning up our Lace Curtain Stock—Close out Odds and Ends—Those we have only a few pairs of etc.

This makes an interesting sale in itself but this time we're going to make it doubly interesting by giving a

Straight Cut of 25%

clear through the line.

Any or every curtain in our stock at this discount.

**HARD'S "THE BIG STORE"****CLASSIFIED ADVERTISING.**

Wanted, For Sale, To Rent, Financial, Exchange, personals not exceeding 30 words, daily, three insertions 25 cents; 50 cents the week, \$1.50 the month. Weekly, 25 cents, one time; 75 cents the month. Cash, invariably in advance.

MIDSUMMER DRINKS.**Thirst Quenching and Cooling Concoctions of Home Manufacture.**

At this season a cooling drink that is not only thirst quenching, but healthful and appetizing, should be at hand in every home. From the following tested recipes, originally presented in Good Housekeeping, some special favorites may be chosen that all the family will enjoy:

Sarsaparilla Mead.—Take three pounds of sugar, three ounces of tartaric acid, one ounce each of cream of tartar, flour and essence of sarsaparilla and three quarts of water. Strain and bottle it. Let it stand ten days before using.

Currant Shrub.—Boil currant juice and sugar in proportion of one pound of sugar to one pint of juice five minutes. Stir it constantly while cooling. When cold, bottle it. Use like raspberry shrub, a tea-spoonful or two to a tumblerful of water.

Raspberry Vinegar.—Mash two quarts of raspberries in an earthen vessel. Put them in a large stone bottle or jar and pour over them two quarts of good strong vinegar. Cork the jar slightly and let the juice distill in the sun two or three weeks; then filter clear and bottle, corking it well.

Oatmeal Drink.—Put into a large pan a quarter of a pound of fine fresh oatmeal, six ounces of white sugar and half of a lemon cut into small pieces. Mix with a little warm water, then pour over it one gallon of boiling water, stirring all together thoroughly, and use when cold.

Lemonade Syrup.—With one pound of sugar mix the grated yellow rind of six lemons, moisten the sugar with as much water as it will absorb and boil it to a clear syrup. Add the juice of 12 lemons, stirring it in well over the fire, but do not let it boil after the juice is added. Bottle the syrup at once and cork it when cold. Mix a little of this with cold water when lemonade is wanted.

The majority of these drinks when put up in small bottles may be cooled just before using simply by setting the bottle in the ice chest. Others which bear adulterating may simply have cracked ice added after filling the glass.

The Moving Plant.

A very queer plant belongs to the pea family and is called the "moving plant" on account of the manner in which its leaves turn around of their own accord or go by jerks, without being touched or in any way disturbed. Sometimes only one or two leaves on a plant will be affected; at other times they will all perform jumps and gyrations simultaneously. It is observed that the movements are most energetic when the thermometer marks about 80 degrees.

Why France Lags Behind.

Frenchmen do not want to rule; they want to live. The pursuit of life, of laughter, of charming sensations, of intelligent apprehensions, of individual development of character—it may all be more important, more vital to human existence than the preoccupation to rule oneself and others, to make laws and to fight.—Steevens' "Glimpses of Three Nations."

Cut this out and take it to Alvin H. Bulger's drug store and get a box of Chamberlain's Stomach & Liver Tablets. The best physic. They also correct disorders of the stomach. Price 25 cents.

EAST END**LOST MUCH BLOOD**

MAN NEARLY DIED FROM HAVING TEETH PULLED.

Joseph McKinnon, of Ohio Avenue, Had a Very Narrow Escape.

Joseph McKinnon, of Ohio avenue, came near bleeding to death last evening as the result of an experience in the dentist's chair yesterday afternoon. Four teeth were extracted from the lower jaw and in some way an artery at the base of the tongue was severed.

The gum had been deadened with cocaine, and the blood did not start to flow until after Mr. McKinnon had gone to his home and the effects of the drug had worn off. Late in the evening the blood started to spurt from the artery and all attempts to stay the flow were unavailing.

A physician was summoned and worked with the wound for a considerable length of time before he finally succeeded in stopping the flow. More than a quart of blood flowed from the wound before it was stopped, and Mr. McKinnon is very weak as a result.

BADLY SHAKEN UP

Charles Reed Takes a Header While Riding on His Bicycle.

Charles Reed received a severe shaking up as a result of a header from his bicycle last evening. He was coasting down Dry Run hill when the chain broke, thus throwing off the brake and his wheel was running at a terrific speed when he struck the corner of the basement at Dry Run bridge. He alighted quite a distance from the wheel, but fortunately was not injured beyond a few bruises and general shaking up. The front wheel of his bicycle was smashed to pieces.

AMALGAMATEDSCOPE

To be Extended by Organizing Mills Outside the Combine.

CORNERS MEN AND PRODUCT.

Designed to Prevent Trust From Drawing Workmen From Pittsburgh Steel Hoop Company or Buying Their Product.

Pittsburgh, July 23.—Vice President John Pierce and some aides were prepared to go to Glassport and organize the skilled men in the mills of the Pittsburgh Steel Hoop company. This company is independent of the trust and is now owned by the Pittsburgh Steel company, which is preparing to build a mammoth plant in Monessen. The officials of the Pittsburgh Steel Hoop company say that they have always paid Amalgamated scale rates and are indifferent regarding the plans of organization.

This is expected to make the organization of the men comparatively easy. The main point to be gained by the organization, however, will be to give the Amalgamated association control of the men, so that they can check any movement on the part of the American Steel Hoop company.

The Pittsburgh Steel Hoop company supplying its product to the American Steel Hoop company is considered in the movement, and such a deal would become impossible if the mill is organized.

A Rumored Plan of the Trust.

It was rumored last night that the United States Steel corporation officials are laying plans for the resumption of the hoop mills in Pittsburgh.

It was stated that the management of the Painter mill, in West Carson street, while having no immediate idea of operating that plant, will eventually start up with the aid of a number of unskilled mill workers, who for some years have been acting as helpers, and what are known as "turn" men.

They will wait until cooler weather.

Yesterday there was an order from the officials of the National Steel company, to have the former rail mill of that company in Youngstown fitted for rail rolling again. The mill was originally a rail mill.

The closing of the tin and sheet plants has cut off the demand for sheet bars and billets so much that the trust has decided to utilize the present term of idleness due to the strike, in the sheet and hoop mills, to catch up on their rail business and at the same time check any surplus production of sheet bars and billets.

The fact that the National Steel company is thus preparing to change its rail production and shut off its steel bar and billet production is taken as an indication that the officials of the United States Steel corporation are anticipating no early settlement of the present strike, but are rather looking for some considerable delay in operating the mills.

A close watch was kept at Amalgamated headquarters for news from Wellsville and McKeesport. There were reports of an attempt to bring non-union men into the sheet plant at Wellsville, but the rumors were found to be baseless. Assuring reports were received from McKeesport. The Sheet Steel company had apparently abandoned its attempts to operate the "Wood" plant. President Shaffer said he was satisfied to let the company keep on trying to work its mill. He knew there were no men

in sight who could take hold of the costly machinery and run it without breaking it, he said.

Reports From Duncansville.

Conflicting reports from Duncansville, where there has been a quiet struggle going on for the control of the men, show the situation is still uncertain. Reports of the closing of the mill are followed by those announcing a change in the determination of the men. In explanation of this state of affairs, Vice President John Pierce, of the workers' union, who was in Duncansville last week on an organizing expedition, said:

"Duncansville is an old town. The only thing in it that supports the people is this one mill of the American Steel Hoop company. If it shuts down, the prop that holds the town up will fall out, and things will go badly for the people. The men who work in the mill have heard the declarations of the mill officials. They also want to join our association. They realize that they are between two fires, and so soon as they decide one way some argument is brought to bear on the other side, and they change their minds. For this reason it is hard to predict what the outcome will be."

President Shaffer, in referring to this same mill, said in part: "The threat of the company to close down the plant entirely, dismantle it and abandon the town, is an old one. They will never do this for the simple reason that the mill is splendidly located, close to the coal fields and with abundant shipping facilities."

Admonished Not to Drink.

Late yesterday afternoon the Amalgamated association issued its first strike bulletin from the general offices.

In the most prominent part of the bulletin is printed the warning words, "Do not drink, especially if the trust tries to break the strike by importing non-union men. Don't believe anyone who says the mills will be closed forever or taken out of the community if you don't go to work."

Further on, the same warning notice reads, "There were not enough men in the country to run the mills before the strike, so all you need to do to win the strike is don't work. Enjoy your summer shutdown; it means more work next winter."

SOME NEWS OF INTEREST.

John Cooney, of Irvineton, Pa., was killed by a train at Altoona, Pa.

Christian Weinberger, of Parkersburg, W. Va., committed suicide by drinking a dose of paris green.

James McLean, of Millwood, W. Va., was drowned in the Ohio river near Russell's dam.

Henry Wimeld and his two sons were badly stung by bees at their home near Cumberland, Md.

S. A. Porter and E. H. Frill are under arrest at Sheffield, Pa., charged with passing counterfeit money.

A trip through the Holy Land is being planned by about 800 Presbyterians of Western Pennsylvania.

John Pronik, a Slavish mine worker, was drowned in the Youghiogheny at Adelaide, Pa., Sunday while bathing.

Judge Alfred Arte, of the orphans' court of Luzerne county, Pa., died of blood poisoning.

An attempt was made to wreck the safe of the store of J. C. Harman, of Penfield, Pa. The dynamite partially ruined the building.

William Underwood, a demented man, drowned himself in about three feet of water in the Allegheny at Warren, Pa.

At Constantinople the sultan has issued a decree ordering the establishment of medical schools at Bagdad, Damascus, Smyrna and Adrianople.

Charles Fyle, of New Castle, Pa., fell from a freight train and was killed near his home. He was employed on the Frick building in Pittsburgh.

Miss Louise Sanderson, only daughter of General Thomas W. Sanderson, a prominent member of the bar, died at Youngstown, O., of pneumonia.

Mrs. Charles Tammmerman died at Akron, O., of grief caused by the imprisonment of her husband for complicity in a riot last August. He was to have been pardoned on Aug. 2.

George Tucker, his wife and child are missing from their home at Cross Roads, W. Va. It is said the husband and wife had frequent quarrels, and a tragedy is feared.

Mgr. Scalabrin, bishop of Rome and Piacenza, has departed from Rome for New York to organize refugee homes and Catholic schools for Italian emigrants.

Simon Ziggatti, Polish, had his back broken in two places by a fall

of state at Continental mine No. 3. He is at the Cottage State hospital, Connellsville, Pa., with no chances of recovery.

At Frostburg, Md., Mrs. Annie M. Cackley, aged 43, wife of the Rev. Dr. A. M. Cackley, a prominent minister of the Methodist Episcopal church, South, is dead from the effects of a fall.

Aaron, the 4-year-old son of Mr. and Mrs. Henry Harrison, of Dents Run, a small village 30 miles from Dubois, Pa., was burned to death in a stable. The little fellow had been playing with matches and set fire to the hay.

Samuel McCleary, a former alderman of the Sixth ward, McKeesport, Pa., was instantly killed while riding in a Monongahela traction car in Duquesne. He leaned from the car and his head was crushed by a pole.

Nathaniel Breading Hogg, one of the best known residents of the two cities, and one of the founders of the foundry firm of Totten & Co., died at his home, No. 520 Church avenue, Allegheny City, Pa., aged 84.

At Kansas City, Mo., Miss Orra J. Tallman, of Valparaiso, Ind., died at University hospital, being the twenty-third victim of the Chicago and Alton train wreck. She was on the way to the Epworth League convention at San Francisco when injured.

At Beaver, Pa., Miss Nettie French, daughter of Captain Samuel French, died at the dinner table. She had just returned from service at the Presbyterian church. The cause of death was heart disease. She was a sister of Miss Kate French, a teacher in the Franklin public school at Pittsburgh.

Colonel W. H. Mable, of Tidewater, Pa., is building about a seven-mile standard gauge road from his lumber mills, near Monroe, W. Va., to Cranberry Summit. The old roadbed of the Roaring Creek and Charleston railroad, built in 1833, at great expense, is being turned into a lumber road.

Major Charles A. Little, a lawyer of Hagerstown, Md., who was defeated for congress last fall on the Democratic ticket, has been appointed colonel of the First regiment, M. N. G. and Captain James C. Porter, of Company C, Annapolis, has been appointed major to succeed him.

At New York the tailors in the sweat shops on the East Side have been called out on strike in accordance with the decision of the garment workers' trade council. It was estimated that 20,000 workers quit Saturday and that Monday 20,000 more refused to work.

At South Orange, N. J., the war against mosquitoes is not progressing favorably. Dr. W. W. Heberon and his fellow warriors have scattered much crude and kerosene oil, but the insects continue business. Many citizens say they would rather be bitten by mosquitoes than have a constant smell of oil about their premises.

At Paterson, N. J., the temporary administrators of the estate of Jacob S. Rogers, the locomotive builder, who left the bulk of his fortune to the Metropolitan Museum of Art in New York, estimate the value of the estate at \$6,000,000. Of this amount the museum will receive \$5,000,000, according to the will.

At Los Angeles, Cal., Colonel Albert Jenks, a well-known artist, dropped dead on the street. Heart disease was the cause of death. Colonel Jenks was born in New York 75 years ago. Among the distinguished persons whose portraits he painted were President Abraham Lincoln, General Phil Sheridan and General John A. Logan.

Attorney General Knox will ask Congress to purchase an entire block of ground for the department of justice building. He considers the quarter of a square of ground opposite the treasury building altogether too small for the future needs of the department. Congress has appropriated \$1,000,000 for the structure, but this will not be enough, if the attorney general's plans are carried out.

The Single Thought.

"Ah," sighed the fond mother, "two souls with but a single thought!"

"Yes," echoed paterfamilias, "and less than one dollar. I don't know how they're going to make it, Mary, unless—perhaps that single thought they've got is that papa's going to put up for two."—Denver Times.

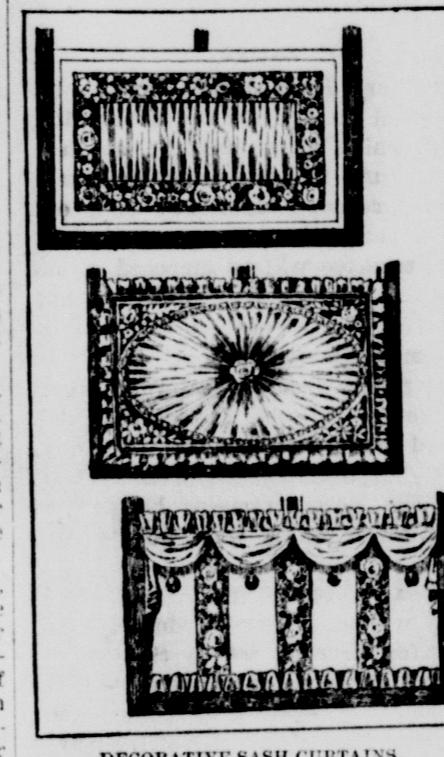

If a man is treated well at home, he would rather eat at home and sleep at home and loaf at home than anywhere else.—Atchison Globe.

It is never too late to learn, but when a man thinks he knows it all that settles it.—Chicago News.

SUMMER DRAPERY.

Some Suggestions For Artistic Window Sash Curtains.

The draperies in the accompanying illustrations are all intended to be made up in muslin or silk and will form a very pleasant contrast to the rather trite and wornout patterns now in use. Beyond a piece of simple muslin or muslin plaited many people seem to be without ideas on this important subject, and important it is, for the first impression of any house is derived from glance at the windows. A very pretty idea is given in the upper figure. The suggestion is really for a silk blind. A sort of border is cut out round the

DECORATIVE SASH CURTAINS.

silk and fine lace sewed in. This helps to give light and at the same time is extremely pretty. The blind might be hung on a frame as is shown or might be bound with something at the top and be hung on a rod. Variations of this particular treatment are quite easy and consist in perhaps a little undulation at the bottom of the blind for a fringe. By daytime one gets the warm light through the silk and by night the pretty lace is seen.

In the second figure more elaboration is apparent, and here a special frame is certainly necessary. The silk is gathered together in a sort of bunch in the middle of the blind, and the light streaming through will make this look very pretty.

In the third figure muslin might be used, and it would perhaps not be too daring an innovation to suggest that a double sided cretonne should be inserted in the strip shown. Of course, the cretonne would want very careful choosing in conjunction with the muslin.

Matrimony In Gilbert Islands.

Women of the Gilbert islands being merely regarded as cattle or any other property, writes Arthur Inksterley in The Overland Monthly, the matrimonial knot is easily tied and just as easily untied. If a man fancies a girl, he seizes her by the hair of the head, wherever she may be, despite her protestations, and drags her away to his home. Her resistance is not often serious, the pretense of refusal being due to the coquettishness inherent in the sex. When the couple reach the house of the groom, a wedding feast is furnished forthwith, to which all the immediate friends of the bride and bridegroom are invited. But an acceptance of the invitation implies the contribution of some viands to the entertainment. Matrimony is attended by no further ceremony than this. When a husband grows weary of his wife, he simply orders her to leave him, and if she does not he turns her out of doors.

The Englishman and His Order.

An Englishman at a Chicago hotel ordered a trap. He ordered it of an intelligent looking key clerk behind the desk. Then he went up stairs to his room to prepare himself for the drive. He waited half an hour for the announcement that the vehicle was below. He began to wonder if this was an example of the American hustle whose reputation had crossed the Atlantic.

Presently came a knock on the door. "Come in," bade the Englishman.

Entered a mechanical looking man in his shirt sleeves.

"Where's the hole?" was his question.

"Hole?" queried the Englishman. "I wanted a trap."

"Here it is," said the toiler, "and it'll catch that mouse sure."

The Englishman's mouth opened in astonishment. "Mouse? What do you mean? Who are you, anyhow?"

"I'm the hotel carpenter, sir, and I've brought up the trap you ordered."

The Englishman glared. Then it penetrated his Saxon wits, and he roared.

He gave the carpenter half a dollar and swore the joke for once was on America.

The Right Side.

"I wouldn't fight, my good man," said the peacemaker.

"But he called me a thief, sir!" exclaimed one of the combatants.

"And he called me a lazy loafer," cried the other.

"Well," said the peacemaker serenely,

"I wouldn't fight over a difference of opinion. You may both be right."—Tit-Bits.

COUNTY AND NEIGHBORHOOD

Jefferson County Civil War Veterans

will hold their annual reunion August 29.

John Allison, aged 77, of Cross Creek district, near Wellsburg, is dead.

A trip through the Holy Land is being planned by 800 Presbyterians or western Pennsylvanians.

The Berea Oil company is now about to make a test for oil near Salem. The first well will be put down on the Straley farm.

The Jefferson county commissioners estimate that the damage done to the roads in that county by heavy rains this spring will not be less than \$20,000.

Talk is revived of making the B. Z. & C. railway, which runs from Belaire to Zanesville, a standard gauge railway. It is Munroe county's only railroad.

Colored laborers employed in the plant of the Massillon Iron and Steel company, are unable to secure boarding house accommodation. They are living in tents.

In many Massillon churches Sunday money was contributed to the fund being raised by Mayor Wise for the relief of the fire sufferers of Versailles, O. A number of citizens have sought out the mayor to make contributions.

Walter Landrum, superintendent of the Cleveland Trinidad Asphalt company, which has paving contracts at Youngstown, attempted to commit suicide by taking laudanum. It is said that jealousy of his wife prompted the act.

Thieves at Toronto entered four residences Sunday night and made off with several suits of clothes. At one house they took a quantity of canned fruit. A lock on the dwelling of O. Y. Crawford was bent by the robbers, but they failed to gain an entrance. No clues.

A Postmaster Writes:

"I wish to add my testimonial to the genuine merit of Dr. Caldwell's Syrup Pepsin. I have tried many remedies, but have found your Syrup Pepsin superior to all other laxatives and stomach medicines. My wife and I both use it and know it does all that you claim for it.

IN THE DIAMOND.

AMALGAMATEDSCOPE

To be Extended by Organizing Mills Outside the Combine.

CORNERS MEN AND PRODUCT.

Designed to Prevent Trust From Drawing Workmen From Pittsburgh Steel Hoop Company or Buying Their Product.

Pittsburgh, July 23.—Vice President John Pierce and some aides were prepared to go to Glassport and organize the skilled men in the mills of the Pittsburgh Steel Hoop company. This company is independent of the trust and is now owned by the Pittsburgh Steel company, which is preparing to build a mammoth plant in Monessen. The officials of the Pittsburgh Steel Hoop company say that they have always paid Amalgamated scale rates and are indifferent regarding the plans of organization.

This is expected to make the organization of the men comparatively easy. The main point to be gained by the organization, however, will be to give the Amalgamated association control of the men, so that they can check any movement on the part of the American Steel Hoop company in getting them for their own mills.

It is also stated that the possibility of the Pittsburgh Steel Hoop company supplying its product to the American Steel Hoop company is considered in the movement, and such a deal would become impossible if the mill is organized.

A Rumored Plan of the Trust.

It was rumored last night that the United States Steel corporation officials are laying plans for the resumption of the hoop mills in Pittsburgh.

It was stated that the management of the Painter mill, in West Carson street, while having no immediate idea of operating that plant, will eventually start up with the aid of a number of unskilled mill workers, who for some years have been acting as helpers, and what are known as "turn" men.

They will wait until cooler weather. Yesterday there was an order from the officials of the National Steel company, to have the former rail mill of that company in Youngstown fitted for rail rolling again. The mill was originally a rail mill.

The closing of the tin and sheet plants has cut off the demand for sheet bars and billets so much that the trust has decided to utilize the present term of idleness due to the strike, in the sheet and hoop mills, to catch up on their rail business and at the same time check any surplus production of sheet bars and billets.

The fact that the National Steel company is thus preparing to change its rail production and shut off its steel bar and billet production is taken as an indication that the officials of the United States Steel corporation are anticipating no early settlement of the present strike, but are rather looking for some considerable delay in operating the mills.

Close watch was kept at Amalgamated headquarters for news from Wellsville and McKeesport. There were reports of an attempt to bring non-union men into the sheet plant at Wellsville, but the rumors were found to be baseless. Assuring reports were received from McKeesport. The Sheet Steel company had apparently abandoned its attempts to operate the "Wood" plant. President Shaffer said he was satisfied to let the company keep on trying to let its mill. He knew there were no men

in sight who could take hold of the costly machinery and run it without breaking it, he said.

Reports From Duncansville.

Conflicting reports from Duncansville, where there has been a quiet struggle going on for the control of the men, show the situation is still uncertain. Reports of the closing of the mill are followed by those announcing a change in the determination of the men. In explanation of this state of affairs, Vice President John Pierce, of the workers' union, who was in Duncansville last week on an organizing expedition, said:

"Duncansville is an old town. The only thing in it that supports the people is this one mill of the American Steel Hoop company. If it shuts down, the props that hold the town up will fall out, and things will go badly for the people. The men who work in the mill have heard the declarations of the mill officials. They realize that they are between two fires, and so soon as they decide one way some argument is brought to bear on the other side, and they change their minds. For this reason it is hard to predict what the outcome will be."

President Shaffer, in referring to this same mill, said in part: "The threat of the company to close down the plant entirely, dismantle it and abandon the town, is an old one. They will never do this for the simple reason that the mill is splendidly located, close to the coal fields and with abundant shipping facilities."

Admonished Not to Drink.

Late yesterday afternoon the Amalgamated association issued its first strike bulletin from the general office.

In the most prominent part of the bulletin is printed the warning words, "Do not drink, especially if the trust tries to break the strike by importing non-union men. Don't believe anyone who says the mills will be closed forever or taken out of the community if you don't go to work."

Further on, the same warning notice reads, "There were not enough men in the country to run the mills before the strike, so all you need to do to win the strike is don't work. Enjoy your summer shutdown; it means more work next winter."

PREHISTORIC AMERICA.

According to an Associated Press report, a pre-historic city of immense proportions is said to have just been unearthed on the Navajo Indian reservation between Durango, Col., and Farmington, N. M. A palace has been found containing, it is said, about 1,000 square apartments, some of them in an excellent state of preservation. Another stone castle contained 100 square apartments. In some of the ruins inspected were found the finest of woods and other relics of a valuable character.

How much truth there may be in the foregoing we have no means of ascertaining. But, in the light of discoveries that have been made from time to time in the west, we would not be surprised to learn that every word of it is true. America presents a fascinating field for archeological research, which has the merit of being almost wholly undeveloped. There is no telling when marvels rivaling those of Nineveh and Troy may be brought to light. Investigations in recent years have progressed far enough to prove that there was a very ancient civilization on this continent and that its history is practically a sealed book. For profitable scientific exploration American scholars should turn their attention to their own land.

AN ANTI-TREATING ORDER.

The Knights of Columbus, in convention at Put-in-Bay, have taken an action that cannot fail to meet with widespread approval and to bring new honor to this strong and useful organization. The Knights, at a recent meeting, unanimously indorsed the sentiment of "no treating," and recommended to state councils and to the national council the adoption of a rule of the order forbidding the vile saloon-treating habit."

Such a rule, adopted and enforced among the Knights, or among members of any other organization, would do more to prevent drunkenness than thousands of temperance addresses or tons of temperance tracts. Unquestionably the treating habit is as bad as the Knights of Columbus say it is. It is probably the foundation of more than half the intemperance existing today. If the great society whose representatives have spoken, can succeed in abolishing the practice they will do incalculable good. All friends of temperance and morality will unite in wishing them good speed and success in their worthy endeavor.

A WEST VIRGINIA LYNCHING. Certain people in our sister state, West Virginia, are once more exhibiting an unhealthy disrespect for the law. There was absolutely no excuse

for the lynching of the negro at Elkins. The criminal was in the hands of the authorities and almost certain to receive the full penalty of West Virginia justice, which is generally swift and sure. But the mob spirit ruled, and the thrifty town of Elkins became the scene of one of those deplorable affairs which are blots upon our civilization. The only redeeming feature is that the better class of citizens are indignant and propose to bring the law-breakers to justice. Application of the Ohio law which makes the county where a lynching occurs responsible for resultant damages would doubtless have a wholesome effect in West Virginia.

It is surprising how much misery and woe can be caused by the careless use of that highly serviceable article, the oil can. "Didn't know it was loaded" is a worn-out excuse. It is always loaded, and the long chapters of horrors resulting from bringing it near the fire ought to convince the public of the fact.

The history which makes Admiral Schley out a coward will never be used as a text book. Neither will any volume giving credit for the victory at Santiago to the man who was out of sight of the fight be generally approved by educators.

The Carnegie museum at Pittsburg has added a homophone to its collection. It is said to resemble the East Liverpool board of trade in that it was active once.

The first summer of the century appears ambitious to establish a standing record as the hottest.

OBITUARY.

Mrs. Fannie Connell.

Mrs. Fannie Connell died very suddenly at the home of her son, Andrew Hunter Connell, two miles north of town, yesterday afternoon, from heart trouble, aged 82 years. At 3 o'clock the lady was about the house, and at 4 she was compelled to lie down. She died at 5 o'clock. She is survived by three children, John Nelton, of Cleveland, Samuel George, and Andrew Hunter, at whose home she died. Funeral services will be held tomorrow afternoon at 1:30 o'clock from her late home, and interment will be made at Calcutta cemetery.

Henry M. Smith.

Henry M. Smith, aged 51 years, died at the home of his nephew, Edgar E. Spivey, Calcutta road, last evening at 6 o'clock, after an illness of seven months of tuberculosis. He is a carpenter and unmarried. He is survived by three sisters and two brothers, Mrs. Esther Spivey, Misses Lizzie and Mattie Smith and James R. and Stephen Smith, of Fairview. The funeral services will be held tomorrow morning at 10 o'clock, and interment will be made at Millcreek cemetery, Georgetown.

Mrs. John Grove.

Salem, July 23.—(Special)—Mrs. John Grove, aged 75, died last evening from the effects of a fall received about four months ago while visiting friends in Pennsylvania. She was an old resident of Salem and is survived by her husband and six children. Mr. and Mrs. Grove celebrated their golden wedding a few years ago.

LARGELY JOHNSON'S WORK.

A Cleveland Light Company Assessed \$713,755 More Than Usual.

Cleveland, July 23.—The annual city board of equalization resumed its work of assessing the property of corporations doing business in Cleveland. As a result of information largely brought out by Tom Johnson and his tax expert, Prof. Bemis, the board raised the taxable value of the Peoples Gas Light company, doing business exclusively on the Westside, to \$1,074,000, or an increase of \$713,755 over the return made by the company.

Two lines of men's durable working shirts now on sale. Wise buyers take notice. 50 cent blue polka dot shirts, 33 cents; 40 cent light percale shirts, 25 cents. Erlanger & Co.

FRIENDS AND VISITORS

William Challis is visiting relatives at Sewickley.

O. Ralson has returned from a visit at Atlantic City.

Mr. and Mrs. J. Pope left this morning for a visit at Buffalo.

Squire J. N. Rose was in Salem today, en route to Cleveland.

Miss Cora Crumley left this morning for her home at Salineville.

O. Geiseman, of Wellsville, is in the city, the guest of George F. Brunt.

A. W. Ridge has returned from a visit with his parents at McKeesport.

Mrs. Margaret Smith returned from a visit with her parents at Salineville.

Attorney R. G. Thompson will leave in a few days for an extensive trip up the lakes.

Superintendent R. E. Rayman has moved from Thompson avenue to Grandview.

Mr. and Mrs. William Harker left today for a visit of several weeks at Cockburn, Canada.

Mr. and Mrs. Frank Conkle, of Third street, are spending several weeks on their farm near Park O.

Miss Kate Dunn has returned to her home in Steubenville, after a three weeks' visit with friends in this city.

William Ormes left yesterday for Detroit, where he will play a cornet with the Twin City band of Pittsburgh.

Rollin W. Patterson and wife left this afternoon for Port Cockburn, Canada. They expect to be absent for two weeks.

George C. Smith, who has been confined to his home on Ravine street for the past five weeks with fever, is able to be out.

J. N. Logan has arrived in this city from East Palestine, where he is employed. The gentleman is ill with stomach trouble and will remain with his family here until he has entirely recovered.

SOUTH SIDE**CROWD FROM CANTON**

Composed of Lutherans, in Possession of Rock Springs Park Today.

The Evangelical Lutheran church of Canton, holds sway at Rock Springs park today. The pleasure seekers arrived about 10 o'clock this morning in two special trains, hauling 23 coaches and carrying about 1,500 people. Many of the visitors remained in the city until this afternoon before going to the park.

No dance was indulged in, but the roller coaster and merry-go-round were greatly in demand and were crowded during the entire day. The crowd was very orderly and the day is being passed quietly. The picnickers paid short visits to many of their friends in this city.

Met With a Mishap.

Frank Lowe met with a slight accident that caused considerable inconvenience while delivering ice on the Southside this morning. When attempting to cross the street car line the coupling pole was broken and it was necessary to borrow another wagon to finish delivering the ice.

CHESTER NEWS NOTES.

The foundation for the new Chester city hall was completed today and the carpenters commenced work at once.

Mrs. Dr. Donehoo is entertaining a number of relatives and friends at her home on Indiana avenue this afternoon.

The carpenters will commence work on the new school building tomorrow, the masons having finished their work today.

The infant child of Mr. and Mrs. Patrick Burns is seriously ill with cholera infantum. Its recovery is very doubtful.

MRS. HANNA MAY LIVE ABROAD.

Threatens She Will Not Take Her Boys Each to America.

London, July 23.—Mrs. Hanna, the divorced wife of Daniel R. Hanna, who, with her children, succeeded in leaving New York July 13 on the steamer Campania for London in spite of efforts to stop their departure and who is staying with friends here, said to a representative of the Associated Press:

"I cannot see why there should be this fuss about my affairs. The court gave me absolute control of my children, and Mr. Hanna consented before leaving Cleveland that I should take the children away. The death of my mother recently and my own illness necessitated my coming abroad."

"When I reached New York I found my hotel surrounded with detectives bent upon preventing my children leaving. If it is necessary I may send for my horses and make my future home in England, where I will prepare my boys for Eton and Oxford. I am determined to bring up my children myself and they are securely mine in England."

Mrs. Hanna appears worn and nervous, apparently a result of her intense mental strain.

No Moonstruck Maidens Now.

Science has proved that moonlight is more fatal to the complexion than the sun in his splendor, says the New York Commercial Advertiser, and they are now selling in Paris little moonshades made of a double thickness of monseline de soie, with a light fringe, the handles of which fold back like those of the marquises of our grandmothers' time.

Erlangers' are showing the largest and most handsome line of stock ties. Price range from 50 cents to \$1.25.

A MAN'S CLOTHES.**An Authoritative Talk About Dress For Various Occasions.**

"The most formal dress a man wears is his evening clothes," says Mr. Fritz Williams in the New York Herald, "and these should be perfectly simple, displaying no jewelry except studs and buttons, and showing no color to destroy the harmony of the black and white combination. Studs should never be anything but pearls and the ordinary little buttons, three for 50 cents,

BLUE AND WHITE COOL GRAY HOME FLANNEL.

SPENCER ON JOHN FISKE**British Scientist Praises Famous American Historian's Service.****INTERESTING FACTS ON HIS LIFE.**

For Twenty-five Years the Great Philosopher Scarcely Left His Library Except For Lecture Tours. His Intimacy With Eminent Men and Methods of Work.

Herbert Spencer, England's famous scientist and philosopher, cabled to the New York Journal the following eulogy on the late John Fiske, great American historian and philosopher:

"Beyond all question, John Fiske did an important service in diffusing, popularizing and elucidating the doctrine of evolution, while giving new illustrations and extension special to himself. His death is a misfortune."

At the time of his death John Fiske, the great historian and philosopher, was just in the act of moving his valuable library and household gods to his new home on Brattle street, near the historic Longfellow house, at Cambridge, Mass.

For the first time in 20 years he was taking a little breathing spell. He had brought his latest work in hand, "The History of the Americas," practically to a close. For the two weeks previous to his death he had been supervising the transfer of his precious books, 30,000 in all, to his new workshop.

The collection of this library had been his fad, his recreation, for 50 years. He had spent upon it over \$150,000. When he was but 12 years old, he had a little library of 200 volumes. That was the nucleus from which has sprung this historical and philosophical library, probably the most complete private collection in this country along these lines. John Fiske's life was spent in his library. For 25 years he had scarcely moved out of it, except when on his lecture tours.

Among his books, reaching in double and triple rows from floor to ceiling in the big central room of his house, he found his only recreation. The only exercise he took was to pace from his little working alcove, walled in by books, out to his conservatory on the south veranda, which also adjoined the library.

The only exercise he took was to pace from his little working alcove, walled in by books, out to his conservatory on the south veranda, which also adjoined the library.

It was a pathway 20 feet long. Here was John Fiske's world. It was here that he wrote those delightful "Excursions of an Evolutionist" that have given to so many their best ideas of evolution and the wonders of nature. Here his "Destiny of Man" was conceived and executed, as well as that masterly treatise on "Cosmic Philosophy."

In the little alcove, looking out through a vine wreathed window upon a bit of lawn and a row of poplars on a quiet side street, most of his histories, too, were written, such as "The Beginnings of New England," "The Discovery of America," "Old Virginia and Her Neighbors," "The American Revolution," "The War For Independence" and many others.

Professor John H. Wright of Harvard university will supervise the publication of the historian's last books.

In the search which will be made for hidden literary treasures many important things are expected to be brought to light. Letters from Darwin, Huxley, Haeckel, Spencer, are known to be tucked away somewhere. These he never showed to anybody, not even to members of his own family, but the intimate terms that he had with all these eminent men abroad are well known. With Herbert Spencer in particular he kept up a correspondence to the last. What inspiring thoughts they interchanged may yet be brought out in a book of letters and memoirs.

But there are other indications of how he kept in touch with those kindred souls of the world of science and philosophy. On some of the shelves nearest to his seat at the desk were whole rows of books of each of those men, not less than a dozen of Darwin's long lines of volumes of Spencer from earliest to latest editions, and the same of Huxley and Haeckel. John Stuart Mill's numerous contributions to philosophy and Bain's "Emotions and the Will" all show how deeply Mr. Fiske delved into and lived in the philosophical world.

Sitting at this same little alcove desk, where he had worked almost daily for 25 years, he could put his hand on quite a different set of books. They were the historical ones, on Salem witchcraft, on early colonial history of New England, the Quaker colonies, Virginia and French Canada, such books as can be bought in no bookstore now and found in but few libraries. These were his working reference books.

To get to another of his treasure corners he had to rise and take a few strides across the room to his folklore section. Out of this collection of traditions, from east, west, north and south in America, and from all parts of the old world in French, German, Spanish, Italian, Greek, Polish and Sanskrit, he had gleaned his data and his inspiration for his "Myths and Myth Makers."

All this goes to show why John Fiske's library was his world. Here he would come after his breakfast at 8 o'clock in the morning. He would write until 12 or 1 o'clock. Like lightning he would turn off the big folio sheets in a hand as fine as an engraver's. So clear and precise were his thoughts that his first drafts scarcely ever needed any corrections. He would write 3,000 or 4,000 words at a sitting.

After an hour at lunch he would again take his seat at his desk and either resume his writing or vary the task by correcting proofs from his publishers or perhaps he would take up some new reading or research. Then came the dinner hour in the evening.

Mercerized linen in pale pink, blue and green makes charming morning gowns, tucked in groups all around the skirt above a shaped flounce headed and finished with a stitched band.

Lawnes, dimities and even ginghams have a place on the list of summer day gowns.

New ribbons, new velvet ribbons, new belt brooches and dozens of other new hot weather goods which we offer as at usual the lowest prices.

Star Bargain Store, 138 and 140 Fifth Street.

This he particularly enjoyed. He was a big man, six feet tall and weighed 300 pounds. Some called him self indulgent because he liked his food so well. He liked a quart of ale, too, at his dinners. At his table he was the wit, humorist and genial, loving husband, father and host.

With absolutely no exercise it is easy to see how even the strongest constitution would break down under such a regimen. The reason he gave for not taking exercise was that it wearied and distracted his thoughts from his work. He would not let anything interfere with that.

Up to within a few years Mr. Fiske used to work almost as much at night as in the daytime. He would re-enter his study at 8 o'clock and busy himself with reading, translation and research till 2 o'clock in the morning. In those quiet night hours, when nothing could disturb him, he thought out his themes. That was why he was able the next morning to sit down and write them off by the thousand words without an error or correction.

He used to be a great lover of his pipes, of which he kept an assortment on a table near his desk. But with increasing corpulence he had to give up this luxury. It seemed to interfere with that.

It was not only in his library that Mr. Fiske worked out his great thoughts. Hanging up in the music room is a framed photograph of a big apple tree at Petersham, N. H., his wife's early home. He occasionally took a summer trip there. Under that apple tree he wrote "Through Nature to God" in two weeks. In this way he turned even his recreation trips to account.

It may almost be said that John F

SOUTH SIDE**CROWD FROM CANTON**

Composed of Lutherans, in Possession of Rock Springs Park Today.

The Evangelical Lutheran church of Canton, holds sway at Rock Springs park today. The pleasure seekers arrived about 10 o'clock this morning in two special trains, hauling 23 coaches and carrying about 1,500 people. Many of the visitors remained in the city until this afternoon before going to the park.

No dance was indulged in, but the roller coaster and merry-go-round were greatly in demand and were crowded during the entire day. The crowd was very orderly and the day is being passed quietly. The picnickers paid short visits to many of their friends in this city.

Met With a Mishap.

Frank Lowe met with a slight accident that caused considerable inconvenience while delivering ice on the Southside this morning. When attempting to cross the street car line the coupling pole was broken and it was necessary to borrow another wagon to finish delivering the ice.

CHESTER NEWS NOTES.

The foundation for the new Chester city hall was completed today and the carpenters commenced work at once.

Mrs. Dr. Donehoo is entertaining a number of relatives and friends at her home on Indiana avenue this afternoon.

The carpenters will commence work on the new school building tomorrow, the masons having finished their work today.

The infant child of Mr. and Mrs. Patrick Burns is seriously ill with cholera infantum. Its recovery is very doubtful.

MRS. HANNA MAY LIVE ABROAD.

Threatens She Will Not Take Her Boys Back to America.

London, July 23.—Mrs. Hanna, the divorced wife of Daniel R. Hanna, who, with her children, succeeded in leaving New York July 13 on the steamer Campania for London in spite of efforts to stop their departure and who is staying with friends here, said to a representative of the Associated Press:

"I cannot see why there should be this fuss about my affairs. The court gave me absolute control of my children, and Mr. Hanna consented before leaving Cleveland that I should take the children away. The death of my mother recently and my own illness necessitated my coming abroad."

"When I reached New York I found my hotel surrounded with detectives, bent upon preventing my children leaving. If it is necessary I may send for my horses and make my future home in England, where I will prepare my boys for Eton and Oxford. I am determined to bring up my children myself and they are securely mine in England."

Mrs. Hanna appears worn and nervous, apparently a result of her intense mental strain.

No Moonstruck Maidens Now. Science has proved that moonlight is more fatal to the complexion than the sun in its splendor, says the New York Commercial Advertiser, and they are now selling in Paris little moonshades made of a double thickness of mousseline de soie, with a light fringe, the handles of which fold back like those of the marquises of our grandmothers time.

Erlangers' are showing the largest and most handsome line of stock ties. Price range from 50 cents to \$1.25.

A MAN'S CLOTHES.**An Authoritative Talk About Dress For Various Occasions.**

"The most formal dress a man wears is his evening clothes," says Mr. Fritz Williams in the New York Herald, "and these should be perfectly simple, displaying no jewelry except studs and buttons, and showing no color to destroy the harmony of the black and white combination. Studs should never be anything but pearls and the ordinary little buttons, three for 50 cents,

BLUE AND WHITE COOL GRAY HOME FLANNEL SPUN.

do very well. The crush hat is a part of the uniform, though the silk one may be worn. Watch and key chains should be hidden from view.

"The tuxedo coat belongs to the club and perhaps informally at home. With this coat a derby or straw hat may be worn and, of course, the small black tie. Except with evening clothes the small tie is always undress.

"The black frock coat is the formal afternoon dress, while the gray one may be worn on other occasions, though we could hardly call it informal. At weddings and receptions and wherever ladies are to be the black frock, closely buttoned up, is the correct thing.

"Trousers with this coat are of black, showing an indistinct stripe. With the gray frock coat, which has trousers of the same material, a fancy waistcoat is permissible. Colored shirts do not belong to the frock coat and neither do turnover collars. These both mark the informal dress.

"With morning dress more liberty is allowed, and a man may indulge his fancy for colored shirts, handkerchiefs and ties, though these should be neat and smart. The suit made of loosely woven material, such as homespun, is coolest and most comfortable, two important qualifications. Square cut coats are smartest. With this morning suit go a soft felt hat, usually a fedora, and perhaps a white canvas waistcoat.

"I believe the walking stick belongs to afternoon clothes, though it may be carried at any time. A man doesn't want a stick when going to business, and if he has on evening clothes he wants nothing that will be in his way. The plain wooden stick is not carried. The correct one shows a little ornamentation, never of gold, for young men.

"There is only one yachting dress, but for outing a man may choose whatever he likes. Flannels, however, are by far the most comfortable to wear. White trousers showing a fine dark stripe, a blue coat striped with gray or white and a shirt with a soft plaited bosom are good form. Plaited bosoms, by the way, should always be soft.

"Shoes may be white or tan, generally the latter, and a good hat is the straw alpine. One should observe the same rule with the outing suit as with evening clothes—keep it harmonious and confined to two colors. Blue and white or black and white are excellent combinations, though, as the latter obviously belong to evening dress. It is better to choose the former. Blue is a color universally becoming, and its combination with white produces a particularly cool and fresh effect.

"I mention the alpine hat because the shape suits nearly all men, just as most women find it becoming.

"Trousers of the outing suit should be made with straps at the waist, through which may be slipped a plain leather belt, one not too narrow. This belt must fit snugly around the top, allowing none of the trousers to show above it. In this way the waist assumes the desired trim look. A good idea is to get the belt first and have the loops on the trousers made to fit it exactly."

"The cuts from the journal mentioned show a smart outing suit of blue and white flannel and a Panama hat and a cool looking morning suit of gray homespun, with gray felt hat and white canvas waistcoat.

Fashions and Fancies.

Costly silver-toned chiming bells are beginning to be a fad for the extensive estates of wealthy people.

A popular hat is a sailor with a rolled up brim trimmed around with wild flowers, with a bow of black velvet ribbon on the left side falling over the hair.

There is nothing particularly novel about the combination of white dotted muslin and narrow black velvet ribbon, but it is certainly most charming.

Black and white striped silk is fashionable again and is considered especially modish as a trimming on linen gowns.

Mercerized linen in pale pink, blue and green makes charming morning gowns, tucked in groups all around the skirt above a shaped flounce headed and finished with a stitched band.

Lawnes, dimities and even ginghams have a place on the list of summer day gowns.

SPENCER ON JOHN FISKE**British Scientist Praises Famous American Historian's Service.****INTERESTING FACTS ON HIS LIFE.**

For Twenty-five Years the Great Philosopher Scarcely Left His Library Except For Lecture Tours. His Intimacy With Eminent Men and Methods of Work.

Herbert Spencer, England's famous scientist and philosopher, cabled to the New York Journal the following eulogy on the late John Fiske, great American historian and philosopher:

"Beyond all question, John Fiske did an important service in diffusing, popularizing and elucidating the doctrine of evolution, while giving new illustrations and extension special to himself. His death is a misfortune."

At the time of his death John Fiske, the great historian and philosopher, was just in the act of moving his valuable library and household gods to his new home on Brattle street, near the historic Longfellow house, at Cambridge, Mass.

For the first time in 20 years he was taking a little breathing spell. He had brought his latest work in hand, "The History of the Americas," practically to a close. For the two weeks previous to his death he had been supervising the transfer of his precious books, 30,000 in all, to his new workshop.

The collection of this library had been his fad, his recreation, for 50 years. He had spent upon it over \$150,000. When he was but 12 years old, he had a little library of 200 volumes. That was the nucleus from which has sprung this historical and philosophical library, probably the most complete private collection in this country along these lines. John Fiske's life was spent in his library. For 25 years he had scarcely moved out of it, except when on his lecture tours. Among his books, reaching in double and triple rows from floor to ceiling in the big central room of his house, he found his only recreation.

The only exercise he took was to pace from his little working alcove, walled in by books, out to his conservatory on the south veranda, which also adjoined the library.

It was a pathway 20 feet long. Here was John Fiske's world. It was here that he wrote those delightful "Excursions of an Evolutionist" that have given to so many their best ideas of evolution and the wonders of nature. Here his "Destiny of Man" was conceived and executed, as well as that masterly treatise on "Cosmic Philosophy."

In the little alcove, looking out through a vine wreathed window upon a bit of lawn and a row of poplars on a quiet side street, most of his histories, too, were written, such as "The Beginnings of New England," "The Discovery of America," "Old Virginia and Her Neighbors," "The American Revolution," "The War For Independence" and many others.

Professor John H. Wright of Harvard university will supervise the publication of the historian's last books. In the search which will be made for hidden literary treasures many important things are expected to be brought to light. Letters from Darwin, Huxley, Haeckel, Spencer, are known to be tucked away somewhere. These he never showed to anybody, not even to members of his own family, but the intimate terms that he had with all these eminent men abroad are well known. With Herbert Spencer in particular he kept up a correspondence to the last. What inspiring thoughts they interchanged may yet be brought out in a book of letters and memoirs.

But there are other indications of how he kept in touch with those kindred souls of the world of science and philosophy. On some of the shelves nearest to his seat at the desk were whole rows of books of each of those men, not less than a dozen of Darwin's; long lines of volumes of Spencer from earliest to latest editions, and the same of Huxley and Haeckel. John Stuart Mill's numerous contributions to philosophy and Bain's "Emotions and the Will" all show how deeply Mr. Fiske delved into and lived in the philosophical world.

Sitting at this same little alcove desk, where he had worked almost daily for 25 years, he could put his hand on quite a different set of books. They were the historical ones, on Salem witchcraft, on early colonial history of New England, the Quaker colonies, Virginia and French Canada, such books as can be bought in no bookstore now and found in but few libraries. These were his working reference books.

To get to another of his treasure corners he had but to rise and take a few strides across the room to his folklore section. Out of this collection of traditions, from east, west, north and south in America, and from all parts of the old world in French, German, Spanish, Italian, Greek, Polish and Sanskrit, he had gleaned his data and his inspiration for his "Myths and Myth Makers."

All this goes to show why John Fiske's library was his world. Here he would come after his breakfast at 8 o'clock in the morning. He would write until 12 or 1 o'clock. Like lightning he would turn off the big folio sheets in a hand as fine as an engraver's. So clear and precise were his thoughts that his first drafts scarcely ever needed any corrections. He would write 3,000 or 4,000 words at a sitting.

After an hour at lunch he would again take his seat at his desk and either resume his writing or vary the task by correcting proofs from his publishers or perhaps he would take up some new reading or research. Then came the dinner hour in the evening.

There is nothing particularly novel about the combination of white dotted muslin and narrow black velvet ribbon, but it is certainly most charming.

Black and white striped silk is fashionable again and is considered especially modish as a trimming on linen gowns.

Mercerized linen in pale pink, blue and green makes charming morning gowns, tucked in groups all around the skirt above a shaped flounce headed and finished with a stitched band.

Ten Years' Trial

The Story of a Soldier's Struggle

By Brigadier General
Charles King

Copyright, 1901, by Charles King

CHAPTER VII.

Late that wintry night there steamed into Brentwood a train laden with 300 state soldiers, who in silent array left the cars somewhere in the suburbs, thereby disappearing in a big throng awaiting them at the station marched rapidly under experienced guides to the armory of the local company, gave the mob guardians thereof the alternative of surrendering at once or being blown into flinders in less than five minutes, whereupon, as described in the local press, "there was a squealing and a scattering." Thence they bore the recaptured arms to the Big Horn roundhouse and dispatched an engine with a strong guard up the Seattle road to run back the exiles still "living on the country" 40 miles away, and before long Melville had seven companies of militia ready to do anything under such cool headed, accomplished leadership. The strikers for a time seemed bewildered by the coming of the troop train and the return of certain weary stragglers of the band that set forth so boastfully the previous day, all with tales of treachery on the part of their fellows and tremendous odds on the part of the despised militia—"militia with regulars to officer them"—and there was ground for the statement, for Melville had hailed with keen though repressed delight the coming of the peppery little major, a veteran of the civil war, and of Langdon, who, though in civilian dress, had been "spotted for a soldier" even before they got to Gunnison. Ball cartridges had been issued to Captain Linkenfelder's men as they stood in the depot at Missouri Junction awaiting the coming of a train bearing two companies from the south, and then came a funny thing. Linkenfelder could have shown them all about "loading in nine times," as they did in the war days, but this was a new company. He was an old officer, and the manual, minus the loadings and firings, was all he had yet taught them of the new breechloader when came the call to arms. Mr. Channing, impatiently pacing the platform and reading dispatch after dispatch and occasionally dictating an answer to his new and silent secretary, presently saw that Langdon's attention was wandering and looked at him inquiringly.

"Those men have never been taught to load and fire," said Langdon, "and their captain doesn't know how. There will be trouble if they get into a snarl with rioters."

"Then, for God's sake, you show them! Here, Captain Linkenfelder," he continued impetuously, "my friend is a West Point officer. Let him help you there." Linkenfelder knew Channing well, as who along the line did not? He wiped his brow and tried to look pleased as he explained that he hadn't been drilling long. But in five minutes Langdon had the eight non-commissioned officers present in a squad, the rest of the company eagerly surrounding and looking on. In 20 minutes they had "got the hang" of

From that position he meant to give the word.

the most important parts. In an hour, when the other train came sweeping in, he had the whole company in line practicing "fire by company," "fire by rank," "fire by file," and never in a dozen drills had the Junction Light guard learned as much as they had that day.

"That fellow's a dandy drillmaster," was the verdict, and the fame of the exploit and the praise of this unknown soldier had gone through the train before ever it reached the bridge. Next morning when Company G was told off for a possibly hazardous piece of duty and its captain was found to be still in arrest and "sulking in his tent" a committee went to the peppery little major with the gray mustache and blinking eyes, not as might have been expected, to ask "cap's release," but to say that "the boys wanted a man who was way up in the 'biz' if there was any fighting to be done and could not that West Point fellow take command?" "Will you do it?" asked the little major of Langdon. "Will you do it?" echoed Channing, and away went Eric across a maze of tracks, 70 strapping young fellows striding confidently after him, rejoicing in the ring and power of his word of command. An

"My God, I can't!" said the civil official, wiping the sweat from his brow despite the cold wind from the westward prairie. He gazed almost fearfully along that surging fence line. It resembled by this time nothing so much as one continuous cage of snarling, roaring beasts. It was plain the poor fellow was losing his nerve. "Me and my family couldn't live in this community another week. Can't you say something to them, Mr. Channing?" Like many another civil official, the sheriff was realizing that it was quite one thing to tackle a lot of tramps, friendless and desperate as they were down at Bridge Siding; it was quite another to think of letting drive a deadly volley into the breasts of a mob that might contain friends and fellow citizens, and that would be sure to turn to retaliation and possibly murder his own beloved ones. Small wonder the sheriff hesitated!

"Too late to talk!" shouted Channing impatiently. "Besides, there isn't one same railroad man in 20 in that lot. They're toughs from every town along the Big Muddy, and, by heaven, they'll sack these yards before the regulars can get here unless you can stop it. Langdon! That infernal Seattle train ought to have been in long ago, but it may get here inside of an hour, and their general manager's just behind 'em on a special. What can you do?" And Channing set his stern jaw and glared at the crowd, fight, almost fury, in his blazing eyes, then turned back to Langdon. Before the latter could answer there came a scream from the sheriff.

"Look! Sledge hammers, by heaven!" he cried, pointing to the gate, already shaken by the furious heaving of the throng.

"Then there's only one thing to do," answered Langdon, his face very pale, but his eyes alight. "Out of the way, please, Mr. Sheriff." And, thus dismissing and disposing of that now useless functionary, he stepped quickly back to the front of his men. Even in that supreme moment he was counting the chances of every move. He had faced rioters before and knew how vital it was that every movement of the troops should be machinelike and precise.

"Listen to me carefully, now, men." He spoke in his clear, animated tone, every word cutting through the clamor so as to be distinctly heard by these his young soldiers standing grave-faced and some of them, it was evident, quivering before him, while, on the other hand, at his back and beyond the fence the roar among the rioters made his voice inaudible. "I shall face you to the right, march opposite the gate, then face you to the front again. Now, watch me well. I shall go to the gates, say a few words to those fellows, then step back and order you to load, and that means load with cartridges. Obey coolly. Take your time, but keep your hammers down at half cock and don't let a finger touch the trigger! Quietly now," he added. Then, according to the tactics of the day, Langdon gave the order to carry arms, paused to see it thoroughly understood, then "Right face," which was done to a man without a flaw; then "Forward, march!" at which, to the accompaniment of redoubled yells and some few half bricks that came hurtling over the fence, but fell short, the company moved off. "Short step in front," he warned the guide, so that his men should not become spread out or like novices, trip over one another's heels. And so in very commendable order and in another moment he had his men opposite the point of danger. Then rang out the order, "Company, halt!" faced them to the front once more, and there they stood at carry arms, silent, awed, but utterly subordinate, and, despite the fury of abuse and denunciation which greeted their move, looking straight into the faces of the raging mob, but with both ears attent and one eye on their cool headed commander. He smiled at them a moment. "Why, you fellows are steady enough for veterans," he said. And, with his own heart thumping fast, he placidly turned again and with one calm glance at the surging scene before him and purposely leaving his men at the carry he walked quietly forward. Channing and the sheriff away to the rear, looking breathlessly on.

For, now that he had time to face the facts and consider the position in all its bearings, he realized that he had no authority whatever in law or fact to enable him to discharge the grave duties of his position—not so much as a commission in the state troops, not even a warrant as a deputy sheriff. If the mob charged and to defend the lives of these men he was compelled to order them to fire, an indictment for murder would doubtless lie at his door. It is one thing to do a man's whole duty with the law behind him; it is another to stand and face a thousand veterans and realize that every drop of blood that might be shed on either side would, in the event of success or failure, be charged up to him. And still he never seemed disturbed.

But Langdon's heart beat quick when, just as it seemed probable that, neck or nothing, he should have to face the situation and fight, he caught sight of Channing with the sheriff and a brace of deputies coming toward him on the run. The crowd having concentrated here, it was possible for the officials now to leave other threatened points. He strolled, as it were, with almost exaggerated quiet to the right flank of his men to meet them. The mob redoubled its screams of defiance.

"Major Melville wants to know how you're getting along," panted Channing, as he hastened up, red faced, anxious, but plucky.

"Well, you see for yourself," said Eric, with a nod of his head toward the fence. "Those fellows mean to burst through in a minute or two."

"Can't you scare 'em? Fire a volley over their heads?" puffed the sheriff, eager and willing, but utterly inexperienced.

"That's murder," was the cool reply. "A mob gains tenfold in daring and devilment when it sees you're afraid to fire anything but blanks. You'll simply have to kill 50 then where five would have sufficed in the first place. No, sir. Ball cartridges or nothing. And here's another point. I'm not an officer either of the troops or of the law." And now Eric had to raise his voice above the outer clamor. "I can give the necessary commands and at the proper instant, and I can drive those howlers back in one volley if they attempt to force the gates, but you, Mr. Sheriff, must stand by my side, and assume responsibility; otherwise a week from now you'll be around with a warrant for my arrest."

"My God, I can't!" said the civil official, wiping the sweat from his brow despite the cold wind from the westward prairie. He gazed almost fearfully along that surging fence line. It resembled by this time nothing so much as one continuous cage of snarling, roaring beasts. It was plain the poor fellow was losing his nerve. "Me and my family couldn't live in this community another week. Can't you say something to them, Mr. Channing?" Like many another civil official, the sheriff was realizing that it was quite one thing to tackle a lot of tramps, friendless and desperate as they were down at Bridge Siding; it was quite another to think of letting drive a deadly volley into the breasts of a mob that might contain friends and fellow citizens, and that would be sure to turn to retaliation and possibly murder his own beloved ones. Small wonder the sheriff hesitated!

"Too late to talk!" shouted Channing impatiently. "Besides, there isn't one same railroad man in 20 in that lot. They're toughs from every town along the Big Muddy, and, by heaven, they'll sack these yards before the regulars can get here unless you can stop it. Langdon! That infernal Seattle train ought to have been in long ago, but it may get here inside of an hour, and their general manager's just behind 'em on a special. What can you do?" And Channing set his stern jaw and glared at the crowd, fight, almost fury, in his blazing eyes, then turned back to Langdon. Before the latter could answer there came a scream from the sheriff.

"Look! Sledge hammers, by heaven!" he cried, pointing to the gate, already shaken by the furious heaving of the throng.

"Then there's only one thing to do," answered Langdon, his face very pale, but his eyes alight. "Out of the way, please, Mr. Sheriff." And, thus dismissing and disposing of that now useless functionary, he stepped quickly back to the front of his men. Even in that supreme moment he was counting the chances of every move. He had faced rioters before and knew how vital it was that every movement of the troops should be machinelike and precise.

"Listen to me carefully, now, men." He spoke in his clear, animated tone, every word cutting through the clamor so as to be distinctly heard by these his young soldiers standing grave-faced and some of them, it was evident, quivering before him, while, on the other hand, at his back and beyond the fence the roar among the rioters made his voice inaudible. "I shall face you to the right, march opposite the gate, then face you to the front again. Now, watch me well. I shall go to the gates, say a few words to those fellows, then step back and order you to load, and that means load with cartridges. Obey coolly. Take your time, but keep your hammers down at half cock and don't let a finger touch the trigger! Quietly now," he added. Then, according to the tactics of the day, Langdon gave the order to carry arms, paused to see it thoroughly understood, then "Right face," which was done to a man without a flaw; then "Forward, march!" at which, to the accompaniment of redoubled yells and some few half bricks that came hurtling over the fence, but fell short, the company moved off. "Short step in front," he warned the guide, so that his men should not become spread out or like novices, trip over one another's heels. And so in very commendable order and in another moment he had his men opposite the point of danger. Then rang out the order, "Company, halt!" faced them to the front once more, and there they stood at carry arms, silent, awed, but utterly subordinate, and, despite the fury of abuse and denunciation which greeted their move, looking straight into the faces of the raging mob, but with both ears attent and one eye on their cool headed commander. He smiled at them a moment. "Why, you fellows are steady enough for veterans," he said. And, with his own heart thumping fast, he placidly turned again and with one calm glance at the surging scene before him and purposely leaving his men at the carry he walked quietly forward. Channing and the sheriff away to the rear, looking breathlessly on.

For, now that he had time to face the facts and consider the position in all its bearings, he realized that he had no authority whatever in law or fact to enable him to discharge the grave duties of his position—not so much as a commission in the state troops, not even a warrant as a deputy sheriff. If the mob charged and to defend the lives of these men he was compelled to order them to fire, an indictment for murder would doubtless lie at his door. It is one thing to do a man's whole duty with the law behind him; it is another to stand and face a thousand veterans and realize that every drop of blood that might be shed on either side would, in the event of success or failure, be charged up to him. And still he never seemed disturbed.

But Langdon's heart beat quick when, just as it seemed probable that, neck or nothing, he should have to face the situation and fight, he caught sight of Channing with the sheriff and a brace of deputies coming toward him on the run. The crowd having concentrated here, it was possible for the officials now to leave other threatened points. He strolled, as it were, with almost exaggerated quiet to the right flank of his men to meet them. The mob redoubled its screams of defiance.

"Major Melville wants to know how you're getting along," panted Channing, as he hastened up, red faced, anxious, but plucky.

"Well, you see for yourself," said Eric, with a nod of his head toward the fence. "Those fellows mean to burst through in a minute or two."

"Can't you scare 'em? Fire a volley over their heads?" puffed the sheriff, eager and willing, but utterly inexperienced.

"That's murder," was the cool reply. "A mob gains tenfold in daring and devilment when it sees you're afraid to fire anything but blanks. You'll simply have to kill 50 then where five would have sufficed in the first place. No, sir. Ball cartridges or nothing. And here's another point. I'm not an officer either of the troops or of the law." And now Eric had to raise his voice above the outer clamor. "Short step in front," he warned the guide, so that his men should not

ANTI-SCHLEY PLOT?

Interview of Evans Apparently
Indicates One Ex-
isted.

IGNORANT OF CUBAN SIGNALS,

Which Had Been Arranged For Three
Days, While Before Cienfuegos.
Long Asks, if True, Why He Didn't
Report It to Navy Department.

Washington, July 23.—In regard to the Sampson-Schley controversy, Admiral "Bob" Evans gave out an interview, in which he practically admitted there was a conspiracy among all of the captains of the fleets under the command of Schley and Sampson, except Captain Cook, who commanded the Brooklyn, Admiral Schley's flagship.

Rear Admiral Evans asserts that the signals arranged by Captain B. H. McCalla with the friendly natives to communicate information to the American fleet were not made known to Schley until he had been in Cienfuegos for three days. This explains the cause of Schley's remaining off Cienfuegos so long in search of the Spanish fleet. When it was known to others that it was not there it will be remembered that admiral Schley was sent to Cienfuegos to blockade the Spanish fleet, which was supposed to be there.

Captain McCalla informed Admiral Sampson of the code, which was communicated by him to the several commanders with the exception of Admiral Schley and Captain Cook aboard the Brooklyn.

The Cubans followed instructions, placing three horses in a row along the shore in the day time and three white lights by night. Schley gave them no heed, for the reason that he had not been advised by Admiral Sampson of their meaning. As soon as Rear Admiral Schley was advised, on May 24, that the Spanish fleet was not at Cienfuegos he left within a few hours for Santiago.

When seen last night Secretary Long refused further to discuss the controversy except to say: "If it is true that the signals were withheld from Schley, why didn't he make a complaint to the navy department at the time?"

TWO MEN KILLED.

They Were Struck by a Train, Near Belmont, N. Y.

Bradford, Pa., July 23.—Charles Homer, son of P. Homer, a well-known farmer, was killed by the cars near Belmont, N. Y. With Ernest Brown, he was hauling hay and the team was being driven across the Erie tracks. A train came along and struck the wagon. Young Homer fell under the wheels of the train and was decapitated. Brown's body was horribly mangled. The railroad people took the bodies of the dead men to Cuba and notified the coroner.

In addition to losing his son, Mr. Homer had another misfortune. A brush fire communicated with his barn and the building was destroyed.

FIERCE HEAT IN THE WEST.

Went as High as 108 at Springfield, Illinois, and Des Moines, Iowa.

Washington, July 23.—In Des Moines, Ia., the temperature officially reported Monday was 108; in Springfield, Ills., 108; in Cincinnati, 106, and in Louisville, 106, in each case breaking all past records. In Indianapolis it also was 106, five degrees higher than ever before reported.

In St. Louis it was 106; Omaha, 104; Bismarck, N. D., 104, and Concordia, Kan., 102.

PORTO RICO DAY.

July 25 Date Set For Celebration at Buffalo Exposition.

Buffalo, July 23.—Next Thursday, July 25, will be Porto Rico day at the Pan-American exposition. It is announced that the speakers for this occasion will be Governor Charles H. Allen, of Porto Rico; Senator Joseph Benson Foraker, who framed the Porto Rico bill; Assistant Secretary of the State David J. Hill, representing President McKinley; Senator Knute Nelson, of Minnesota, the resident commissioner of the United States; Senator Filderero Degetan, Hon. John G. Milburn, president of the exposition, and Director General W. L. Buchanan.

July 25 is the anniversary of the landing of General Miles in Porto Rico in 1898. It is on this date also that the Porto Ricans asked to have the present tariff restrictions abolished. President McKinley will be requested by Governor Allen to make proclamation to this effect. A resolution recently passed by the Porto Rican legislature declared Porto Rico to be self-supporting and no danger in need of the revenue for government expense incurred by the duty imposed by the Foraker act.

It is planned to make Porto Rican day one of the most interesting in the Pan-American calendar of special days.

Uniform Rank, K. of P., In Camp.

Erie, Pa., July 23.—The Pennsylvania brigade, uniform rank, Knights of Pythias, went into camp at Waldamer park, on the lake, under command of General L. C. Thomas, member of the state legislature from Westmoreland county. The camp ends Friday, and there will be a parade on Wednesday, reunion day, when members of the order will be here from northwestern counties. There were 800 men in camp.

IN UNSETLED CONDITION.

Was the Speculative Mind, as Manifested by Stock Market Opening on Monday.

New York, July 23.—The unsettled condition of the speculative mind was clearly manifest when the stock market opened Monday morning with a fresh batch of unfavorable news regarding the corn crop, and affecting also the chances of the spring wheat crop. The grangers and Pacifics and southwesterners were all actually depressed and heavy blocks of shares of each of those roads were thrown upon the market, opening sales reaching as high as 10,000 shares for Union Pacific. There was effective support offered at the opening low level. But the incipient rally was checked when the corn market opened and the excited condition of affairs there was observed. The present market is largely influenced by the close proximity of the brokers in stocks and the brokers in grains, the stock exchange being in temporary quarters on portion of the produce exchange floor, with only a half wall dividing them. Not only are the proceedings in each exchange to be seen from the floor of the other, but brokers are constantly passing from one to the other and operating on both. This personal contact exaggerates the sentimental effect of the grain market on the stock market. There were occasional rallies on the down grade, due to the covering of board room bears, who took quick profits. The loaning rates for stocks does not indicate a widely extended short interest beyond the in and out transactions by the board room traders. The bearish operators are in constant apprehension of some manoeuvre of announcement by those interested in supporting the market which would cause a sudden rally and cost the shorts heavy losses. There was no evidence of any such manoeuvre Monday, the market yielding easily to every attack. But there was a general disposition on the part of the traders to close up their contracts over night, and the demand from this source caused a substantial rally in the late dealings, running from 1 to 3 points in the leaders. At the low level the throids upon Saturday's prices were as follows for the leading stocks: Rock Island, 7½; Missouri Pacific, 7%; Union Pacific, 6%; St. Paul, 6%; St. Louis Southwestern preferred, 6; Atchison, 4½; St. Louis and San Francisco second preferred, 3½; Kansas and Texas preferred and Denver and Rio Grande preferred, 3½ each. There were many other losses of 1 to 3 points at other points of the list, and Baltimore and Ohio was down 4½ and New York Central 3½. The United States Steel stocks moved narrowly all day. The closing was quiet and steady, with a good part of the rally maintained.

ARMY IN PHILIPPINES TO BE REDUCED.

Manila, July 23.—The conferences between Adjutant General Corbin and General Chaffee, recently held here, will probably result in radical economical and administrative reforms in the army occupation. It is estimated that the total cost of maintaining the American army in the Philippines can be reduced by 60 per cent in the course of one year. The principal change will be the reduction of the present force to between 20,000 and 30,000 men.

WEATHER FORECAST.

Ohio—Fair today and tomorrow; probably warmer tomorrow in northern portion; light north to east winds.

Western Pennsylvania—Partly cloudy today. Tomorrow fair; variable winds.

West Virginia—Partly cloudy today and tomorrow; continued warm; variable winds.

THE MARKETS.

Pittsburgh, July 22.—WHEAT—No. 2 red, 64¢/46¢; No. 2 yellow, 59¢/49¢.

CORN—No. 2 yellow shell, \$1.00/60¢; No. 2 yellow ear, 59¢/49¢.

OATS—No. 2 white, 47¢/48¢; extra No. 3 white, 46¢/47¢; regular No. 3, 45¢/46¢.

HAY—No. 1 timothy, \$14.25/14.75; No. 2, \$12.50/13.00; No. 3 mixed hay, \$10.50/11.00; No. 1 clover hay, \$10.00/10.50; No. 1 prairie hay, \$11.00/11.50.

BUTTER—Elgin prints, 22¢/22¢; tuos, 21¢/22¢; Ohio and Pennsylvania creamery, 14¢; 20-pound block butter, 15¢/16¢; country roll, 13¢/14¢; cooking butter, 10¢/13¢.

Eggs—Fresh at mark, 14¢/14¢; fresh candied, 15¢/15¢.

CHEESE—Full cream, New York, 10¢/10¢; Ohio, 10¢; new, three-fourths cream, Ohio, 8¢/6¢; Ohio tubs, 13¢; Wisconsin, Swiss, tubs, 14¢; 20-pound block cheese, 11¢/12¢; hamberg new, 11¢/11¢.

POULTRY—Live—Hens, 10¢/11¢; springers, 13¢/15¢; roosters, 56¢/58¢; turkeys, 7¢/8¢.

Ducks, spring, 13¢/14¢; geese, 75¢/81¢ 25 per pair.

Dressed—Fresh spring broilers, 20¢/22¢; fancy frozen broilers, 18¢/20¢; turkeys, 13¢/14¢; geese, 11¢/12¢ per pound; ducks, 10¢/11¢.

CATTLE—Supply fair, 120 cars on sale; market steady. We quote: Heavy, \$5.85/6.00; prime, \$5.50/6.70; good, \$5.20/6.40; medium, \$5.00/5.25; good grass cattle, \$4.40/4.75; common to good cows, \$2.00/25.00.

HOGS—Receipts light, 28 cars on sale; market active. We quote: Prime heavies, \$6.20; prime assorted mediums, \$6.20/6.25; heavy Yorkers, \$6.20; light Yorkers and good pigs, \$6.15/6.20; common to fair hogs, \$6.10/6.15; skips, \$4.75/5.75; roughs, \$4.25/5.75.

Sheep and Lambs—Supply fair, 16 cars on sale. Market opened steady on sheep and lower on lambs, but closed weak on both. We quote: Best wethers, \$4.20/4.30; good, \$4.00/4.15; mixed, \$3.25/3.75; ewes and common, \$1.50/2.50; years, \$3.60/4.75; veal calves, \$7.00/7.50; heavy and thin, \$4.50/5.50; spring lambs, \$3.00/4.25.

New York, July 22.—WHEAT—Spot market strong; No. 2 red, 75¢ f. o. b. afloat; No. 2 red, 77¢ in elevator; No. 1 Northern Durum, 79¢ f. o. b. afloat; No. 1 hard Durum, 87¢ f. o. b. afloat.

CORN—Spot market strong; No. 2, 62¢ in elevator and 62¢ f. o. b. afloat.

OATS—Spot market very strong; No. 2; No. 3, 40¢; No. 2 white, 44¢/44¢; track mixed western, 40¢/42¢; track white, 42¢/43¢.

CATTLE—Steers slow; good steer steady; medium and common 10¢ off; bulls easier; cows barely steady. Steers, \$4.50/5.85; bulls, \$3.00/3.80; cows, \$2.25/4.10.

SHEEP AND LAMBS—Market for sheep 15¢/25¢ lower; lambs badly demoralized, selling 5¢ to 75¢ off. Sheep, \$2.50/4.50; choice, \$4.50; culms, \$2.00/2.50; lambs, \$3.50/5.50; culms, \$3.00/3.25; two cars choice sold.

HOGS—Market higher; western hogs, \$4.15/5.25; state hogs, \$4.40/5.50.

New York, July 22.—WHEAT—Spot market strong; No. 2 red, 75¢ f. o. b. afloat; No. 2 red, 77¢ in elevator; No. 1 Northern Durum, 79¢ f. o. b. afloat; No. 1 hard Durum, 87¢ f. o. b. afloat.

CORN—Spot market very strong; No. 2, 62¢ in elevator and 62¢ f. o. b. afloat.

OATS—Spot market strong; No. 2; No. 3, 40¢; No. 2 white, 44¢/44¢; track mixed western, 40¢/42¢; track white, 42¢/43¢.

CATTLE—Steers slow; good steer steady; medium and common 10¢ off; bulls easier; cows barely steady. Steers, \$4.50/5.85; bulls, \$3.00/3.80; cows, \$2.25/4.10.

SHEEP AND LAMBS—Market for sheep 15¢/25¢ lower; lambs badly demoralized, selling 5¢ to 75¢ off. Sheep, \$2.50/4.50; choice, \$4.50; culms, \$2.00/2.50; lambs, \$3.50/5.50; culms, \$3.00/3.25; two cars choice sold.

HOGS—Market higher; western hogs, \$4.15/5.25; state hogs, \$4.40/5.50.

New York, July 22.—WHEAT—Spot market strong; No. 2 red, 75¢ f. o. b. afloat; No. 2 red, 77¢ in elevator; No. 1 Northern Durum, 79¢ f. o. b. afloat; No. 1 hard Durum, 87¢ f. o. b. afloat.

CORN—Spot market very strong; No. 2, 62¢ in elevator and 62¢ f. o. b. afloat.

ANTI-SCHLEY PLOT?

Interview of Evans Apparently Indicates One Existed.

CONSPIRANT OF CUBAN SIGNALS,

Which Had Been Arranged For Three Days, While Before Cienfuegos, Long Asks, If True, Why He Didn't Report It to Navy Department.

Washington, July 23.—In regard to the Sampson-Schley controversy, Admiral "Bob" Evans gave out an interview, in which he practically admitted there was a conspiracy among all of the captains of the fleets under the command of Schley and Sampson, except Captain Cook, who commanded the Brooklyn. Admiral Schley's flagship.

Rear Admiral Evans asserts that the signals arranged by Captain B. H. McCalla with the friendly natives to communicate information to the American fleet were not made known to Schley until he had been in Cienfuegos for three days. This explains the cause of Schley's remaining off Cienfuegos so long in search of the Spanish fleet. When it was known to others that it was not there it will be remembered that Admiral Schley was sent to Cienfuegos to blockade the Spanish fleet, which was supposed to be there.

Captain McCalla informed Admiral Sampson of the code, which was communicated by him to the several commanders with the exception of Admiral Schley and Captain Cook, aboard the Brooklyn.

The Cubans followed instructions, placing three horses in a row along the shore in the day time and three white lights by night. Schley gave them no heed, for the reason that he had not been advised by Admiral Sampson of their meaning. As soon as Rear Admiral Schley was advised, on May 24, that the Spanish fleet was not at Cienfuegos he left within a few hours for Santiago.

When seen last night Secretary Long refused further to discuss the controversy except to say: "If it is true that the signals were withheld from Schley, why didn't he make a complaint to the navy department at the time?"

TWO MEN KILLED.

They Were Struck by a Train, Near Belmont, N. Y.

Bradford, Pa., July 23.—Charles Homer, son of P. Homer, a well-known farmer, was killed by the cars near Belmont, N. Y. With Ernest Brown, he was hauling hay and the team was being driven across the Erie tracks. A train came along and struck the wagon. Young Homer fell under the wheels of the train and was decapitated. Brown's body was horribly mangled. The railroad people took the bodies of the dead men to Cuba and notified the coroner.

In addition to losing his son, Mr. Homer had another misfortune. A brush fire communicated with his barn and the building was destroyed.

FIERCE HEAT IN THE WEST.

Went as High as 108 at Springfield, Illinois, and Des Moines, Iowa.

Washington, July 23.—In Des Moines, Ia., the temperature officially reported Monday was 108; in Springfield, Ills., 108; in Cincinnati, 106, and in Louisville, 106, in each case breaking all past records. In Indianapolis it also was 106, five degrees higher than ever before reported.

In St. Louis it was 106; Omaha, 104; Bismarck, N. D., 104, and Concordia, Kan., 102.

PORTO RICO DAY.

July 25 Date Set For Celebration at Buffalo Exposition.

Buffalo, July 23.—Next Thursday, July 25, will be Porto Rico day at the Pan-American exposition. It is announced that the speakers for this occasion will be Governor Charles H. Allen, of Porto Rico; Senator Joseph Benson Foraker, who framed the Porto Rico bill; Assistant Secretary of the State David J. Hill, representing President McKinley; Senator Knute Nelson, of Minnesota, the resident commissioner of the United States; Senator Fetherero Deguet, Hon. John G. Milburn, president of the exposition, and Director General W. J. Buchanan.

July 25 is the anniversary of the landing of General Miles in Porto Rico in 1898. It is on this date also that the Porto Ricans asked to have the present tariff restrictions abolished. President McKinley will be requested by Governor Allen to make proclamation to this effect. A resolution recently passed by the Porto Rican legislature declared Porto Rico to be self-supporting and no danger in need of the revenue for government expense imposed by the duty imposed by the Foraker act.

It is planned to make Porto Rican day one of the most interesting in the Pan-American calendar of special days.

Uniform Rank, K. of P., in Camp.

Erie, Pa., July 23.—The Pennsylvania brigade, uniform rank, Knights of Pythias, went into camp at Walldamer park, on the lake, under command of General L. C. Thomas, member of the state legislature from Westmoreland county. The camp ends Friday, and there will be a parade on Wednesday, reunion day, when members of the order will be here from northwestern counties. There were 800 men in camp.

IN UNSETLED CONDITION.

Was the Speculative Mind, as Manifested by Stock Market Opened on Monday.

New York, July 23.—The unsettled condition of the speculative mind was clearly manifest when the stock market opened Monday morning with a fresh batch of unfavorable news regarding the corn crop, and affecting also the chances of the spring wheat crop. The grangers and Pacifics and southwesterners were all actually depressed and heavy blocks of shares of each of those roads were thrown upon the market, opening sales reaching as high as 10,000 shares for Union Pacific. There was effective support offered at the opening low support offered at the opening low level. But the incipient rally was checked when the corn market opened and the excited condition of affairs there was observed. The present market is largely influenced by the close proximity of the brokers in stocks and the brokers in grains, the stock exchange being in temporary quarters on portion of the produce exchange floor, with only a half wall dividing them. Not only are the proceedings in each exchange to be seen from the floor of the other, but brokers are constantly passing from one to the other and operating on both. This personal contact exaggerates the sentimental effect of the grain market on the stock market. There were occasional rallies on the down grade, due to the covering of board room bears, who took quick profits. The loaning rates for stocks does not indicate a widely extended short interest beyond the in and out transactions by the board room traders. The bearish operators are in constant apprehension of some maneuver of announcement by those interested in supporting the market which would cause a sudden rally and cost the shorts heavy losses. There was no evidence of any such maneuver Monday, the market yielding easily to every attack. But there was a general disposition on the part of the traders to close up their contracts over night, and the demand from this source caused a substantial rally in the late dealings, running from 1 to 3 points in the leaders. At the low level the throids upon Saturday's prices were as follows for the leading stocks: Rock Island, 7½; Missouri Pacific, 7¾; Union Pacific, 6¾; St. Paul, 6¾; St. Louis Southwestern preferred, 6; Atchison, 4½; St. Louis and San Francisco second preferred, 3¾; Kansas and Texas preferred and Denver and Rio Grande preferred, 3½ each. There were many other losses of 1 to 3 points at other points of the list, and Baltimore and Ohio was down 4½ and New York Central 3¾. The United States Steel stocks moved narrowly all day. The closing was quiet and steady, with a good part of the rally maintained.

ARMY IN PHILIPPINES TO BE REDUCED.

Manila, July 23.—The conferences between Adjutant General Corbin and General Chaffee, recently held here, will probably result in radical economical and administrative reforms in the army occupation. It is estimated that the total cost of maintaining the American army in the Philippines can be reduced by 60 per cent in the course of one year. The principal change will be the reduction of the present force to between 20,000 and 30,000 men.

WEATHER FORECAST.

Ohio—Fair today and tomorrow; probably warmer tomorrow in northern portion; light north to east winds.

Western Pennsylvania—Partly cloudy today. Tomorrow fair; variable winds.

West Virginia—Partly cloudy today and tomorrow; continued warm; variable winds.

HOME AFFAIRS.

Brief Notes of a Personal Nature And of Matters About Town.

Shipped to Conneaut—The household goods of W. D. Job were yesterday shipped to Conneaut.

Defeated Toronto Club—The West End Athletics have returned from Toronto, where they defeated the base ball club of that city by a score of 15 to 10. Hits, Athletics 22, Toronto 9.

In Business for Himself—W. A. Wilkerson, an expert barber of East Liverpool, has taken charge of the shop in the Carson block on Market street, and will conduct a first-class place.—Toronto Tribune.

Fighter Hurt—A fight is said to have taken place near the corner of Sixth and Franklin streets yesterday afternoon, in which one of the participants received a bad cut on the head. No arrests have as yet been made.

Hay Party at Hookstown—The National Social club is arranging for a large "hay party" to be held at Hookstown, Pa., during the coming week. It is intended to have the affair eclipse anything of its kind ever brought off in this city and the preparations are extensive. Announcement of the date will be made as soon as it is determined.

The Lutherans' Picnic—Members of St. John's Lutheran church and Sunday school to the number of 300 or 400, spent a delightful afternoon and evening at Rock Springs yesterday. The coming reunion at New Castle will be largely attended by members from this city. It is to be a reunion, not of German Lutherans as has been stated, but of all Lutherans.

In Search of Health—Alfred Cartwright, of the West End, left last evening for Mt. Clemens, Mich., where he will spend a month in the hope that his health may be benefited. Mr. Cartwright has been in bad health for several weeks and has been resting, but no improvement is noticeable, and the doctors advised him to spend a month at the northern resort.

Men's hot weather underwear, worth 35 cents per garment, in plain blue shades, all sizes, now 19 cents. 32-h ERLANGER & CO.

One Lucky Man.

D. W. Rolens, living at the rear of 118 Grant street, held ticket number 203, one of the lucky numbers for a trip to Buffalo.

The party holding number 1619 will please call and get their ticket. Tell your friends to look at the number of their tickets. 32-h

THE SURPRISE CLOTHING HOUSE

Engravings Going Up In Price.

Quite a remarkable fact is the extraordinary price engravings are now reaching, says the London Review. A few years ago \$250 was thought a high price for a good mezzotint or engraving after Sir Joshua Reynolds. Now as much as \$5,000 has been paid on more than one occasion, and from \$2,000 to \$2,500 is the ordinary value of a good specimen.

Amusements.

FOUR PERSONS PERISHED.

Mother and Three Children Victims of a Fire—The Father Was Burned.

Pittsburg, July 23.—A whole family was burned in a Penn avenue temporary fire here. The mother and three children are dead and the husband was badly burned. The explosion of an oil can was the cause of the fire. Following is the list of casualties:

Dead

Mrs. Sophia Ratza, aged 30 years, horribly burned about the entire body; mother of the children.

Viola Ratza, aged 8 years, eldest daughter; burned and smothered by flame and smoke.

Kashner Ratza, boy, aged 5 years, smothered and burned.

Wabock Ratza, boy, aged 2 years, smothered to death; burns not fatal.

Injured

Francis Ratza, the head of the family, was badly burned and was removed to the West Penn hospital. It is said he will recover. Later he left the hospital.

From what can be learned, Mrs. Ratza was preparing breakfast in her apartments on the second floor of the tenement house in the rear of No. 2715 Penn avenue. The fire in the kitchen stove was not burning as quickly as she desired, and she took an oil can and poured some of the oil on the fire. In a moment a blaze sprang from the grate of the stove and ignited the oil in the can and an explosion occurred.

The can was torn to fragments and the burning oil was thrown over Mrs. Ratza. The husband of the woman was in the kitchen at the time, as were also two of the children. In a few minutes the entire room was a mass of flame.

It is said that when the mother and the two children caught fire the mother ran into the room where the other child, Wabock, was sleeping. In her terror the woman came too close to the child's bed and the sheets caught fire, burning the little one to death.

In the meantime the father was trying to save his family. He first went to his wife's assistance, but she was so terrified that he could do nothing with her. After trying to save all and seeing that it was a useless task, Ratza jumped from the window a distance of 12 feet. By this time the fire department had arrived and when Ratza saw that he had left his family to perish in the flames his agony knew no bounds. He tried to break into the house again, but the firemen prevented him.

After some hard work the firemen succeeded in extinguishing the flames. They then went inside and found the bodies.

HOME AFFAIRS.

Brief Notes of a Personal Nature And of Matters About Town.

Shipped to Conneaut—The household goods of W. D. Job were yesterday shipped to Conneaut.

Defeated Toronto Club—The West End Athletics have returned from Toronto, where they defeated the base ball club of that city by a score of 15 to 10. Hits, Athletics 22, Toronto 9.

In Business for Himself—W. A. Wilkerson, an expert barber of East Liverpool, has taken charge of the shop in the Carson block, on Market street, and will conduct a first-class place.—Toronto Tribune.

Fighter Hurt—A fight is said to have taken place near the corner of Sixth and Franklin streets yesterday afternoon, in which one of the participants received a bad cut on the head. No arrests have as yet been made.

Hay Party at Hookstown—The National Social club is arranging for a large "hay party" to be held at Hookstown, Pa., during the coming week. It is intended to have the affair eclipse anything of its kind ever brought off in this city and the preparations are extensive. Announcement of the date will be made as soon as it is determined.

The Lutherans' Picnic—Members of St. John's Lutheran church and Sunday school to the number of 300 or 400, spent a delightful afternoon and evening at Rock Springs yesterday. The coming reunion at New Castle will be largely attended by members from this city. It is to be a reunion, not of German Lutherans as has been stated, but of all Lutherans.

In Search of Health—Alfred Cartwright, of the West End, left last evening for Mt. Clemens, Mich., where he will spend a month in the hope that his health may be benefited. Mr. Cartwright has been in bad health for several weeks and has been resting, but no improvement is noticeable, and the doctors advised him to spend a month at the northern resort.

FOUR PERSONS PERISHED.

Mother and Three Children Victims of a Fire—The Father Was Burned.

Pittsburg, July 23.—A whole family was burned in a Penn avenue tenement fire here. The mother and three children are dead and the husband was badly burned. The explosion of an oil can was the cause of the fire. Following is the list of casualties:

Dead

Mrs. Sophia Ratza, aged 30 years, horribly burned about the entire body; mother of the children.

Viola Ratza, aged 8 years, eldest daughter; burned and smothered by flame and smoke.

Kashner Ratza, boy, aged 5 years, smothered and burned.

Wabock Ratza, boy, aged 2 years, smothered to death; burns not fatal.

Injured.

Francis Ratza, the head of the family, was badly burned and was removed to the West Penn hospital. It is said he will recover. Later he left the hospital.

From what can be learned, Mrs. Ratza was preparing breakfast in her apartments on the second floor of the tenement house in the rear of No. 2715 Penn avenue. The fire in the kitchen stove was not burning as quickly as she desired, and she took an oil can and poured some of the oil on the fire. In a moment a blaze sprang from the grate of the stove and ignited the oil in the can and an explosion occurred.

The can was torn to fragments and the burning oil was thrown over Mrs. Ratza. The husband of the woman was in the kitchen at the time, as were also two of the children. In a few minutes the entire room was a mass of flame.

It is said that when the mother and the two children caught fire the mother ran into the room where the other child, Wabock, was sleeping. In her terror the woman came too close to the child's bed and the sheets caught fire, burning the little one to death.

In the meantime the father was trying to save his family. He first went to his wife's assistance, but she was so terrified that he could do nothing with her. After trying to save all and seeing that it was a useless task, Ratza jumped from the window a distance of 12 feet. By this time the fire department had arrived and when Ratza saw that he had left his family to perish in the flames, his agony knew no bounds. He tried to break into the house again, but the drenmen prevented him.

After some hard work the firemen succeeded in extinguishing the flames. They then went inside and found the bodies.

18TH YEAR. NO. 32.

EAST LIVERPOOL, O., TUESDAY, JULY 23, 1901.

TWO CENTS

NO MORE NON-UNION MEN HAVE REACHED WELLSVILLE

The Situation at the Steel Plant Remains Unchanged From Last Week.

A FLURRY WAS CAUSED

By a Bogus Tip That a Force Was To Be Landed There Last Night.

UNION SENTIMENT IS GROWING

Tenders of Moral And Financial Assistance for the Strikers Are Pouring In—A Striker's Joke Creates Some Diversion.

The attempt to start the Wellsville rolling mill in full yesterday was almost a total failure. No new men were received from out of town and there was a decrease in the number of men from Wellsville. Two of the men received positions in the potteries and two of the others gave up the work.

In the afternoon six of the men, it is reported, responded to Manager Brookman's appeal and started back to the mill. They were headed off at the bridge over Little Yellow creek and three of the number were persuaded to return to their homes. The other three went on to work, according to the mill officials.

The strikers say that only one of the men went to the mill and that he was only let go on his promise to return again when he had seen Mr. Brookman. He said that he had told the manager that he would come up and see him, and he said that he thought that it was only right that he should go up and keep his promise. The men let him go and after a short time he left the mill and went home.

Some of the merchants who talked of refusing to let the strikers have goods on credit are becoming alarmed and have taken a second thought on the matter. They have decided to let the men have the things that they need. They are afraid, no matter how the strike turns out, there will be a Trades and Labor Council formed and in that case the merchants who refuse credit to the men now will be boycotted by all the union laborers of the city.

The idea of founding a union cooperative store is gaining ground. If the strike is prolonged to any extent the scheme will probably be carried out.

Manager D. S. Brookman is very reticent on all subjects pertaining to the disturbance. It is almost impossible to learn anything concerning the situation from him.

The strikers held a meeting yesterday afternoon and decided to hold a picnic at Rock Springs park August 3. The lodges from Lisbon and Irondale will be entertained by the Wellsville lodge.

Great interest centers in the coming meeting of the potters' union. The men have been assured of the help of the potters, and judging from the aid and sympathy already received they are going to get it.

A great many of the strikers were much amused and some of them were alarmed when Daniel Rumbaugh, one of the foremost of the strikers, was seen yesterday coming up the street with his bucket and mill clothes seemingly all ready to go to work. The men who were not in on the joke started after him and he made as if to pull a revolver. Then the men became excited and tried to persuade him not to go to work. All this time the knowing ones were enjoying the joke thoroughly. When he was satisfied he gave in to the persuasion of the union men and returned to Third street. The men who had gone after him had to acknowledge that the joke was on them.

A Pittsburgh newspaper man had a tip from his paper last evening that a batch of non-union men would arrive on train No. 301 at midnight. The mill was quiet and everything seemed to prove the truth of the statement. A greater number of men than usual stayed up on this account, but were all fooled. No new men were seen. The strikers have begun to think there will be no men brought here.

A man who wishes his name to be withheld, but who is a very close

friend of Manager Brookman, declared last night that he had it straight that the officials have a big card up their sleeve, and that the batch of non-union men would be brought tonight, instead of last night, as stated by the reporter.

Organizer Evans stated this afternoon that there was absolutely not the least change in the situation today.

GENEROUS AID

PROMISED BY LOCAL UNIONS TO STRIKING MILL MEN.

Action in East Liverpool And Wellsville—No Lack of Funds for the Amalgamated.

By the end of the present week it is likely every union organization in East Liverpool will have taken action of some sort with reference to the strike of the Amalgamated men in Wellsville.

True, the central labor organization took action at their last meeting in the shape of a resolution, pledging their moral and financial support, and was one of the first bodies in the country to do so; still the members of the different trade organizations believe they should act by themselves.

Of the pottery workers, No. 24, of Wellsville, is perhaps the most active in behalf of the strikers. Indeed, it has been said that they have worked as hard and accomplished quite as much as the Wellsville Amalgamated trades, and some of the best workers in the Brotherhood are to be found men themselves.

No. 24 is made up of all the potters in this local. At the last meeting of the union action was taken setting apart a portion of each member's earnings for the aid of the strikers, and it is announced that there has been no time limit placed for the donations to cease. Similar action has been taken by the Wellsville bricklayers, and a movement has been started to bring up the question in each of the subordinate unions of railway men in that town.

J. J. Fox, corresponding and financial secretary of the bricklayers' union in this city, was at Wellsville yesterday conferring with the officials of the Amalgamated looking to the passage of resolution at their next meeting declaring an assessment. Mr. Fox was seen by a reporter upon his return and said:

"The bricklayers have not yet taken action on the matter for the simple reason that no meeting has been held since the men went out. However, the matter will be up on Wednesday night, and I can assure you favorable action will be taken, at that time. I have investigated the ins and outs of the Wellsville situation and am positive a substantial donation at this time would not come amiss. We do not propose to stop half way in this matter either, and I believe I would be safe in saying that action will be taken which will provide a regular assessment each week as long as the strike lasts."

The plumbers have decided to support the strikers also, and although their aid will not be of as substantial a nature as they would like, as they have recently disposed of a little trouble on their own account that played havoc with their treasury, still their declaration will be none the less sincere.

With sentiment such as is heard on every hand among the unionists of this community there will be no excuse for the strikers to resume work because of lack of funds.

NOVEL SUIT FILED

Railroad Company Asked to Pay Insurance Company for a House Burned.

Lisbon, July 23.—(Special)—The Liverpool & London Globe Insurance company has begun a novel suit. It has filed an action to recover \$500 from the Pennsylvania company. In 1900 the insurance company issued a policy of fire insurance for that amount on the residence of Wm. C. McCullough, of Saline township, Jefferson county.

It is claimed that the dwelling house caught fire last spring from sparks from a locomotive and was totally destroyed. The insurance company paid the full amount of insurance and brings action to compel the railroad to reimburse it.

FIGHTERS PAID FOR THEIR FUN

A Long Time Coming, But Acting Mayor McLane Got the Cash.

TROUBLE IN A BARROOM ORDINANCES ARE STRICT

Occurred Last Thursday—Participants Not Apprehended Until Today—Fined \$9.60 Each—John Cock Charged With Disorderly Conduct.

Acting Mayor McLane held a brief session of court this morning and dispensed justice in a manner quite satisfactory to himself and the city, but perhaps not so to his subjects. Both were accused of fighting and paid over the sum of \$9.60 each. Another man who was engaged in the fight, but who is staying in Chester, will also be tried as soon as he can be located.

The fight took place last Thursday evening in John Kountz's saloon, on Jethro street, and among the "bruisers" were "Kid" O'Hanlon and Frank Ferrall. It was these two who turned over their cash to the mayor this morning.

Ferrall claimed he had not been the aggressor and acted only in self-defense. He admitted, however, that he might have avoided trouble by taking his departure from the bar room, but did not feel disposed to do so. On hearing the lame excuse of the accused, the magistrate adjusted his glasses and struck a telling blow on Ferrall's wallet, extracting therefrom the equivalent of \$5 and costs.

O'Hanlon also averred that he had no hand in the fight other than as peacemaker. The court did not consider that the accused was much of a success at the peace-making business and fined him \$5 and costs for not being a more practical man.

Several others were in the saloon at the time of the rumpus and one man is said to have received a severe beating. The belligerents dispersed before the officers reached the scene, but on information concerning the affair which reached the mayor's office, Chief Thompson preferred charges against O'Hanlon and Ferrall.

John Cock, a printer in a local pottery, who resides on West Market street, was arrested this morning by Officer Mahoney on a warrant charging him with disorderly conduct. Information filed with Chief Thompson by several residents of California Hollow led to Cock's arrest. It is alleged that the man abused his boy yesterday afternoon by beating him with his fists and choking him. The affair took place in Croxall's field.

When brought before Acting Mayor McLane the accused pleaded not guilty to disorderly conduct. He said his boy had run away from his work and that he had simply given the lad a whipping. Cock denied that he had been inhuman in chastising his son and claimed that while he was supposed to be choking him he was only holding the boy by the neck to prevent him from running away. A trial will be held tomorrow afternoon.

MOTHER AND DAUGHTER

Engage in Dispute Over the Possession of a Three-Year-Old Child.

A mother and daughter are in dispute in a Salem court over the possession of a 3-year-old daughter of Mrs. Newton Ingledue, of Salem. The mother is Mrs. Emma Senheiser, of Franklin Square, and it seems that she has been caring for the child which, it is said, was born to her daughter before her marriage. Recently the Ingledues made an effort to get possession of it.

Mrs. Senheiser objected, it is said, on the grounds that they were neither able nor fit to care for it. The mother and daughter fought over the possession of the little one, each obtaining possession of it in time until the daughter finally swore out a warrant, charging her mother with unlawful possession of her three-year-old daughter, Hazel.

Among the Rivermen.

The marks at the wharf this morning registered 4 feet and falling. The Bessie Smith went down last night and the Kanawha will go down tonight. The ferry boat Emily, of Pittsburgh, tied up at the wharf this morning. The boat is on its way to Wheeling.

REMEDY WANTED FOR A NUISANCE

Citizens Indignant at the Manner In Which Many Streets Are Obstructed.

TRouble in a Barroom Ordinances are Strict

But They Appear to Have Fallen Into Innocuous Desuetude—Teamsters Find It Necessary to Clear the Way to Get Vehicles Through.

The manner in which the city streets are being obstructed by building materials, vehicles and rubbish is exciting widespread comment, and the fact that the practice has steadily grown worse recently, has caused a number of prominent residents to investigate with a view to stopping the nuisance.

Scarcely a street in the city is entirely free from obstructions of some sort. In many cases it is almost impossible to drive through some of the principal thoroughfares after nightfall. This morning in an uptown alley within the space of a square nine wagons and other vehicles were counted, and so little attention was paid to where they were left standing that dairymen and drivers of grocery wagons were compelled to alight from their rigs and move the wagons out of the way.

Section 105 of the city ordinances makes it the duty of the city commissioner to see to it that the streets are clean, free and unobstructed at all times. The ordinance reads as follows:

"Section 105—The city commissioner shall have regular charge and supervision of streets, alleys and public ways. He shall superintend the cleaning, repairing and sprucing of the streets, alleys and market places, commons, bridges and culverts of the city, but subject to such rules, regulations and directions as the council may from time to time prescribe."

Several persons have received hard falls because of the fact that building materials have been allowed to remain on the sidewalks in such quantities that pedestrians experience great difficulty in picking their way through even in broad daylight. The ordinance is very plain on this subject, and while it does not fix a limit in which the streets may remain in an obstructed condition in cases where new buildings are being erected, it is hardly probable that they can remain so all summer, as is known to be the case in many instances.

Sections 319 and 320 read as follows:

"When any person shall be about to erect or repair any house or other structure in this city it shall be lawful for such person to place in the street immediately in front of the lot and upon the same side of the street on which such building is to be erected or repaired, any building or other materials necessary to be used in the erections or repairs of the aforesaid; provided, that no sidewalk, pavement or gutter nor more than three-fifths of the width of the street shall be obstructed thereby, and no person or persons shall place or cause to remain, any such material as is herein described upon any of the streets of this city, except within the provisions and limits herein set forth."

"No person having charge of any wagon or other vehicle shall be allowed to obstruct therewith the free passage of any of the streets, alleys or public grounds of this city."

For the violation of the provisions of the foregoing ordinances a penalty of from \$1 to \$50 is fixed.

STATIONARY ENGINEERS

Flourishing New Lodge Installed at Wellsville—Dillonvale Next.

State Deputy R. G. Ingleson, assisted by State Secretary R. A. Orin and other members of the local branch of National Association of Stationary Engineers, instituted a new lodge at Wellsville on Saturday night.

The new branch starts off with a good list of charter members and their success is assured.

The officers elected are: Past president, Charles Ewing; president, A. W. Phillips; vice president, Geo. D. Dickey; recording and corresponding secretary, G. H. McBane; treasurer, Jacob Ridinger; financial secretary, Lee W. Glass; conductor, Robert Ralston; doorkeeper, A. Deemer; trustees, Thomas Thompson, F. E. Smith and Jacob Brooks; representative to

HARD BLOW FROM A BOARD HURLED BY A CIRCULAR SAW

Rochester convention, A. W. Phillips; alternate, R. B. Ralston.

No. 41 has the distinction of having aided in the institution of more subordinate associations than any other in the county.

On Saturday evening, July 27, a lodge of the N. A. S. E. will be instituted at Dillonvale. The local branch will do the work, and it is stated some of the state officers will be present.

D. E. McNICOL BRINGS SUIT AGAINST T. F. ANDERSON.

Defendant Occupied an Office Room Owned By Plaintiff, Who Claims \$40.62 for Rent.

D. E. McNicol brought suit in attachment against T. F. Anderson in Justice McCarron's court late this afternoon for \$40.62, which is claimed due for rent. The defendant, who is president of the American Sewer Pipe company, occupied an office room in the Syndicate building on Sixth street, which is owned by McNicol. At noon today Anderson moved his effects to the East End, and, it is alleged, he neglected to pay his rent or give any notice of his intention of leaving.

Among the office supplies was a large safe. Constable Powell left for the East End as soon as the necessary papers could be served for the purpose of attaching the goods and having them brought back.

SUFFERED FROM HEAT

Extra Run on the Ice Market Yesterday Caused Many Families Great Inconvenience.

Many families in the city suffered greatly from the heat yesterday and ice wagons were kept on the go until late last night. A number of persons, who had been neglecting their supply of the frozen liquid, owing to the temperate climate of the few days back, were caught in a bad fix when Old Sol began to get in his work yesterday morning.

Scores of the regular customers of the ice companies did not receive their supply until late in the day, as the wagons were unable to fill the many orders they received and make their rounds on the usual schedule time.

CLERKS VS. POTTERS

Line-Up for the Interesting Game to Be Played This Evening.

The line-up for the game to be played by the clerks versus the K. T. & K. team at Rock Springs tonight is as follows:

Clerks,	K. T. & K.
O'Hanlon	Catcher.....Booth
Maley	Pitcher.....H. Lowe
Fuller	Short.....Cowey
Dawson	First.....Wines
Wolf	Second.....Jones
Lewis	Third.....Winters
Oliver	Left.....Hunter
Stuckrath	Center.....R. Lowe
Steinfeld	Right.....Cowey

Several of the regular customers of the ice companies did not receive their supply until late in the day, as the wagons were unable to fill the many orders they received and make their rounds on the usual schedule time.

Dr. W. E. Mowen was summoned and the injured man was resuscitated, after which he was removed to his home in Helena, where his wounds were dressed. He rested comparatively well during the night and his condition was unchanged this morning. It is impossible as yet to determine to what extent Mr. Dickey was injured internally, or what the result of the accident may be. It is thought that he will recover.

Mr. Dickey is well known, having resided in the East End for several years.

Martin Dickey Rendered Unconscious and Seriously Hurt at the Flint Mill.

VERY PECULIAR ACCIDENT

Which Broke the Man's Ribs and Gave Him an Ugly Gash on the Body.

Although the Full Extent of His Injuries Has Not Been Determined. An Exceedingly Narrow Escape from Instant Death.

Martin Dickey, of Helena, was perhaps fatally injured at the East End flint mill yesterday afternoon. His escape from instant death was very narrow. A gash several inches in length was cut across his stomach, and one rib was broken.

Mr. Dickey is a carpenter. He was working near a large cylinder rip saw. An oak board, 15 feet in length, which was lying near the saw on the opposite side, in some way came in contact with the cylindrical tool, which was turning at lightning speed. The board was thrown over the saw with terrific force and Dickey barely had time to turn to one side when the board struck him, knocking him off his feet and inflicting the wounds. His physician states that if the board had struck him fair in the pit of the stomach death would have been almost instantaneous. His quick turn sideways saved him.

Dickey was rendered unconscious by the force of the blow. The wound inflicted on the abdomen was not deep, being more in the form of a bruise than a cut.

Dr. W. E. Mowen was summoned and the injured man was resuscitated, after which he was removed to his home in Helena, where his wounds were dressed. He rested comparatively well during the night and his condition was unchanged this morning. It is impossible as yet to determine to what extent Mr. Dickey was injured internally, or what the result of the accident may be. It is thought that he will recover.

EAST END**LOST MUCH BLOOD**

MAN NEARLY DIED FROM HAVING TEETH PULLED.

Joseph McKinnon, of Ohio Avenue, Had a Very Narrow Escape.

Joseph McKinnon, of Ohio avenue, came near bleeding to death last evening as the result of an experience in the dentist's chair yesterday afternoon. Four teeth were extracted from the lower jaw and in some way an artery at the base of the tongue was severed.

The gum had been deadened with cocaine, and the blood did not start to flow until after Mr. McKinnon had gone to his home and the effects of the drug had worn off. Late in the evening the blood started to spurt from the artery and all attempts to stay the flow were unavailing.

A physician was summoned and worked with the wound for a considerable length of time before he finally succeeded in stopping the flow. More than a quart of blood flowed from the wound before it was stopped, and Mr. McKinnon is very weak as a result.

BADLY SHAKEN UP

Charles Reed Takes a Header While Riding on His Bicycle.

Charles Reed received a severe shaking up as a result of a header from his bicycle last evening. He was coasting down Dry Run hill when the chain broke, thus throwing off the brake and his wheel was running at a terrific speed when he struck the corner of the basement at Dry Run bridge. He alighted quite a distance from the wheel, but fortunately was not injured beyond a few bruises and general shaking up. The front wheel of his bicycle was smashed to pieces.

Social at Dry Run.

The Sunday school scholars at Neville Institute have made extensive preparations for a festival to be held at Dry Run this evening. They expect to make the affair one of the most successful socials ever held in Klondike.

EAST END AFFAIRS.

Dr. F. F. Davis is confined to his bed with sickness.

Miss Hannah Irwin, of Ohioville, Pa., was visiting friends in the East End yesterday afternoon.

James Tompkinson has moved from Helena to a new residence recently erected on Calcutta road.

Charles O'Neil, of Louisa, Ky., is visiting friends at Chaffinville. He is seeking a location and will probably move his family to the suburb soon.

Mrs. Ethel Wilkey, of Ohio avenue, left this morning for Massillon, where she will join a party of friends en route to the Pan-American exposition.

George Meyers, of Ohio avenue, is suffering from the effects of an overdose of cocaine administered while having teeth extracted yesterday. His condition is not serious.

Frank T. Searight, of Cleveland, is spending a few days visiting at the home of his parents, Mr. and Mrs. Archie Searight, of Pennsylvania avenue. Mr. Searight has just returned from a visit to the Pan-American exposition.

Mrs. Blanche Kennedy and her son Frank have returned to the East End after a two weeks' visit with friends at Sistersville, W. Va. They are visiting at the home of Mr. and Mrs. W. J. Day. They will leave tomorrow morning for their home at Corydon, Pa.

Thinks It Her Son's Body.

Steubenville, July 23.—Mrs. Edward Simpson, of South Sixth street, believes, from the description of the body found at Wellsburg, that it is that of her son, Edward Campbell, 17 years old. Simpson is her second husband. He has gone to New Cumberland to investigate. Young Campbell has been missing for a week.

Beware of Ointments for Catarrh that Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by E. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in tablets, by F. J. Cheney & Co. Testimonials free. Sold by all Druggists, 75c per bottle. Hall's Family Pills are the best.

Excursion to Chicago via Penna Lines.

July 24th, 25th and 26th, excursion tickets to Chicago, account International Convention, Baptist Young People's Union of America, will be sold via Pennsylvania Lines. For particulars see Ticket Agents.

The News Review for the news.

OPPOSED TO TREATING

Members of Knights of Columbus at Put-in-Bay Denounce the Practice as Vile.

Put-in-Bay, O., July 23.—The prettiest ball of the season here was given by the Knights of Columbus. The mammoth dining room of the hotel, covering a half acre of space, was transformed into a fairyland for the occasion. Strobel's band of Toledo, and a military band and orchestra furnished music for the dance numbers alternately. Punch was served to the knights between numbers.

At a session the following resolution was adopted by a rising vote of the knights and ladies present, amid great enthusiasm, the ladies greeting the adoption of the resolution with waving of handkerchiefs:

"Resolved that we, Knights of Columbus assembled from various states of the middle west, unanimously endorse the sentiment of 'No treating.'

Further, we recommend to our respective state councils and to the national council the adoption of a rule of the order, forbidding the vile saloon treating habit."

RUNAWAY CARS

Caused Considerable Damage And Almost Killed Two Children at Steubenville.

Steubenville, July 23.—While a local yard engine was switching cars yesterday on the main track of the W. & L. E., near the passenger station, a coupling broke, allowing three cars to tear down the grade at a lively rate. At Washington street the block was encountered and torn out of place, the three cars continuing across the pavement and street, tearing up the bricks and earth.

On the north side of the street the end car mounted the steep curve and collided with a tree, snapping it off near the pavement and throwing it against the residence of John Miller.

The tree stopped the runaway cars, but in its fall it tore out part of the wall and steps leading to the house. Two children narrowly escaped being struck.

YOUNG LADY'S WHIP

Applied to a Carrollton Man Who Had Written a Piece About Her.

Carrollton, July 23.—Miss Edith Kirby, a handsome young social leader who goes in for athletic sports, horsewhipped Captain Harry Walker Kirby, a relative, in front of the post-office at La Martine, last evening. Kirby is prominent in county politics and a writer on one of the local papers. In an article he characterized Miss Kirby as "a female noted for devilishness."

The young lady is a daughter of Joseph Kirby, postmaster at La Martine, a brother of T. M. Kirby, who is a member of the county executive committee.

PICKERELL HONORED

The Consul at the Azores, a Youngstown Man, Represents King Edward.

Warren, July 23.—George H. Pickrell, consul at St. Michaels, Azore Islands, has been appointed as the representative of King Edward during the absence of the English consul. Mr. Pickrell has been granted permission by this government, so he is now American consul and acting consul for England, Norway and Sweden.

There were 28 consuls at St. Michaels, so the honor is of some importance. Mr. Pickrell was a Youngstown boy who married Miss Nellie Darling of this city.

PULLED HER OWN TOOTH

And May Lose Her Life as the Result of Hemorrhages—Peculiar Case.

Beloit, July 23.—Mrs. John Kaufman, who resides near this town, is in a very critical condition from the after results of pulling a tooth, which operation she performed herself on last Friday. Soon after the tooth was extracted hemorrhages set in and have not, up to the present time, yielded to treatment.

It is estimated that fully two quarts of blood have issued from the lacerated gums and the woman is prostrated from the loss. But little encouragement is given by the physicians for her recovery. It is a very peculiar and unusual case.

New Marshal at Sebring.

Sebring, July 23.—Hampson Beatty has been appointed temporarily as marshal of Sebring to fill the vacancy caused by the resignation of J. Brown. Beatty is known as the strong man and gained fame by holding out a watch at arm's length for 25 minutes.

Why She Wanted It.

Mr. Bowers—I don't see why you want to spend money for a new thermometer when we have a half dozen already.

Dr. Caldwell's Syrup Pepson cures Stomach Troubles. Sold by W. & W. Pharmacy.

CAUGHT FISH WHILE ASLEEP

Man With a Hooked Arm Remarkably Successful as a Fisherman.

Delaware, July 23.—The prize fish story of the season comes from the western part of the county along the banks of the historic Scioto. The tale is remarkable, not from the number of fish caught, but because of the peculiar method of the catch. James Snook, the hero of the episode, resides near the river. Several years ago he met with an unfortunate accident which necessitated the amputation of his hand at the wrist. For the sake of convenience in use, and perhaps as an additional means of defense he wears a sharp steel hook as a substitute for the lost hand.

During the late heated spell it has been his custom to repair to the river in the hot afternoons, where he keeps a small boat, and where he would fish or read away the time. Yesterday he went to the river as usual, and launching his boat paddled quietly under the shade of one of the large trees which line the bank of the stream, and reclining in the bow of the boat began to read. Drowsiness overtook him and he fell asleep. In some way his arm which wears the hook fell into the water over the gunwale of the boat. Snook does not know how long he slept but was awakened by something shaking his arm. He was startled by a great splashing in the water.

Drawing his arm from the water he was surprised to find a four pound bass securely hooked at the end. Examination disclosed the fact that a minnow had in some way caught itself on the sharp point and the self-caught hook had proved the undoing of the bass.

ALMOST DROWNED

Salem Man Arrested As He Was Going Down for the Third Time.

Salem, July 23.—Harry Appel, an employe of the pottery, was almost drowned in Tolerton's pond Sunday afternoon. While swimming near the breast of the dam he was attacked with cramps. As he was going down the second time, Jack McGlynn, who was on the toboggan slide, hurried to Appel's assistance, catching him just as he was going down the third time.

Appel, who was nearly unconscious, was carried to the shore on McGlynn's back.

FATALLY BITTEN

A Child at Wintersville the Victim of a Vicious Dog.

Steubenville, July 23.—Grace, the five-year-old daughter of William Hotell, of Wintersville, was set on by a vicious Shepherd dog at the farm of Robert Thompson, near that town, and so badly bitten she is dying. The child's face was terribly lacerated before she was rescued.

FIRM FOUNDATION

Nothing Can Undermine It in East Liverpool.

People are sometimes slow to recognize true merit and they cannot be blamed, for so many in the past have been humbugged. The experience of hundreds of East Liverpool residents expressed publicly through newspapers and other sources places Doan's Kidney Pills on a firm foundation.

Mr. C. McLean, of 187 Church alley, who is employed in the East Liverpool Pottery company, says: "I had muscular rheumatism for three years in my back and kidneys. It caused much pain and suffering, the last years being the worst. I had a steady aching pain in my kidneys; extreme weakness in the muscles of the back; could not rest at night except lying flat on my back, and there was urinary weakness accompanying it. Although I had many bad attacks and used many different medicines I never obtained any relief. The worst attack I ever had and which completely used me up, occurred just before I used Doan's Kidney Pills. Not having much faith left in medicines I was rather skeptical when I was recommended to try them, but got so bad that I had to get something so I went for a box to the W. & W. pharmacy. They went direct to the kidneys and acted on the very fountain head of all the trouble, relieving me in a very short time."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

Why She Wanted It.

The Moving Plant.

A very queer plant belongs to the Pea family and is called the "moving plant" on account of the manner in which its leaves turn around of their own accord or go by jerks, without being touched or in any way disturbed. Sometimes only one or two leaves on a plant will be affected; at other times they will all perform jumps and gyrations simultaneously. It is observed that the movements are most energetic when the thermometer marks about 80 degrees.

Why France Lags Behind.

Frenchmen do not want to rule; they want to live. The pursuit of life, of laughter, of charming sensations, of intelligent apprehensions, of individual development of character—it may all be more important, more vital to human existence than the preoccupation to rule oneself and others, to make laws and to fight.—Stevens' "Glimpses of Three Nations."

Cut this out and take it to Alvin H. Bulger's drug store and get a box of Chamberlain's Stomach & Liver Tablets. The best physic. They also correct disorders of the stomach. Price 25 cents.

IN THE DIAMOND.

AMALGAMATEDSCOPE

To be Extended by Organizing Mills Outside the Combine.

CORNERS MEN AND PRODUCT.

Designed to Prevent Trust From Drawing Workmen From Pittsburgh Steel Hoop Company or Buying Their Product.

Pittsburgh, July 23.—Vice President John Pierce and some aides were prepared to go to Glassport and organize the skilled men in the mills of the Pittsburgh Steel Hoop company. This company is independent of the trust and is now owned by the Pittsburgh Steel company, which is preparing to build a mammoth plant in Monessen. The officials of the Pittsburgh Steel Hoop company say that they have always paid Amalgamated scale rates and are indifferent regarding the plans of organization.

This is expected to make the organization of the men comparatively easy. The main point to be gained by the organization, however, will be to give the Amalgamated association control of the men, so that they can check any movement on the part of the American Steel Hoop company in getting them for their own mills.

It is also stated that the possibility of the Pittsburgh Steel Hoop company supplying its product to the American Steel Hoop company is considered in the movement, and such a deal would become impossible if the mill is organized.

A Rumored Plan of the Trust.

It was rumored last night that the United States Steel corporation officials are laying plans for the resumption of the hoop mills in Pittsburgh.

It was stated that the management of the Painter mill, in West Carson street, while having no immediate idea of operating that plant, will eventually start up with the aid of a number of unskilled mill workers, who for some years have been acting as helpers, and what are known as "turn" men.

They will wait until cooler weather. Yesterday there was an order from the officials of the National Steel company, to have the former rail mill of that company in Youngstown fitted for rail rolling again. The mill was originally a rail mill.

The closing of the tin and sheet plants has cut off the demand for sheet bars and billets so much that the trust has decided to utilize the present term of idleness due to the strike, in the sheet and hoop mills, to catch up on their rail business and at the same time check any surplus production of sheet bars and billets.

The fact that the National Steel company is thus preparing to change its rail production and shut off its steel bar and billet production is taken as an indication that the officials of the United States Steel corporation are anticipating no early settlement of the present strike, but are rather looking for some considerable delay in operating the mills.

Close watch was kept at Amalgamated headquarters for news from Wellsville and McKeesport. There were reports of an attempt to bring non-union men into the sheet plant at Wellsville, but the rumors were found to be baseless. Assuring reports were received from McKeesport. The Sheet Steel company had apparently abandoned its attempts to operate the "Wood" plant. President Shaffer said he was satisfied to let the company keep on trying to work its mill. He knew there were no men

Do You Know

JELLYCON

Makes delicious dessert? No cooking, no baking, only a minute's labor. Delicious flavors—Lemon, Orange, Peach, Strawberry, Raspberry, Wild Cherry (delicious with cold meats.)

in sight who could take hold of the costly machinery and run it without breaking it, he said.

Reports From Duncansville.

Conflicting reports from Duncansville, where there has been a quiet struggle going on for the control of the men, show the situation is still uncertain. Reports of the closing of the mill are followed by those announcing a change in the determination of the men. In explanation of this state of affairs, Vice President John Pierce, of the workers' union, who was in Duncansville last week on an organizing expedition, said:

"Duncansville is an old town. The only thing in it that supports the people is this one mill of the American Steel Hoop company. If it shuts down, the people that hold the town up will fall out, and things will go badly for the people. The men who work in the mill have heard the declarations of the mill officials. They also want to join our association. They realize that they are between two fires, and so soon as they decide one way some argument is brought to bear on the other side, and they change their minds. For this reason it is hard to predict what the outcome will be."

President Shaffer, in referring to this same mill, said in part: "The threat of the company to close down the plant entirely, dismantle it and abandon the town, is an old one. They will never do this for the simple reason that the mill is splendidly located, close to the coal fields and with abundant shipping facilities."

Admonished Not to Drink.

Late yesterday afternoon the Amalgamated association issued its first strike bulletin from the general offices.

In the most prominent part of the bulletin is printed the warning words, "Do not drink, especially if the trusts to break the strike by importing non-union men. Don't believe anyone who says the mills will be closed forever or taken out of the community if you don't go to work."

Further on, the same warning notice reads, "There were not enough men in the country to run the mills before the strike, so all you need to do to win the strike is don't work. Enjoy your summer shutdown; it means more work next winter."

SOME NEWS OF INTEREST.

John Cooney, of Irvineton, Pa., was killed by a train at Altoona, Pa.

Christian Weinberger, of Parkersburg, W. Va., committed suicide by drinking a dose of paris green.

James McLean, of Hilwood, W. Va., was drowned in the Ohio river near Russell's dam.

Lucky Maenel and his two sons were badly stung by bees at their home near Cumberland, Md.

S. A. Porter and E. H. Frill are under arrest at Sheffield, Pa., charged with passing counterfeit money.

A trip through the Hoy Land is being planned by about 800 Presbyterians of Western Pennsylvania.

John Pronik, a Slavish mine worker, was drowned in the Youghiogheny at Adelaide, Pa., Sunday while bathing.

Judge Alfred Darte, of the orphans' court of Luzerne county, Pa., died of blood poisoning.

An attempt was made to wreck the safe of the store of J. C. Harman, of Penfield, Pa. The dynamite partially ruined the building.

William Underwood, a demented man, drowned himself in about three feet of water in the Allegheny at Warren, Pa.

At Constantinople the sultan has issued a decree ordering the establishment of medical schools at Bagdad, Damascus, Smyrna and Adrianople.

Charles Fyle, of New Castle, Pa., fell from a freight train and was killed near his home. He was employed on the Frick building in Pittsburgh.

Miss Louise Sanderson, only daughter of General Thomas W. Sanderson, a prominent member of the bar, died at Youngstown, O., of pneumonia.

Mrs. Charles Tammerman died at Akron, O., of grief caused by the imprisonment of her husband for complicity in a riot last August. He was to have been pardoned on Aug. 2.

George Tucker, his wife and child are missing from their home at Cross Roads, W. Va. It is said the husband and wife had frequent quarrels, and a tragedy is feared.

Mr. Scalabrin, bishop of Rome and Piacenza, has departed from Rome for New York to organize refugee homes and Catholic schools for Italian emigrants.

Simon Ziggatti, Polish, had his back broken in two places by a fall

of slate at Continental mine No. 3. He is at the Cottage State hospital, Connellsville, Pa., with no chances of recovery.

At Frostburg, Md., Mrs. Annie M. Cackley, aged 43, wife of the Rev. Dr. A. M. Cackley, a prominent minister of the Methodist Episcopal church, South, is dead from the effects of a fall.

Aaron, the 4-year-old son of Mr. and Mrs. Henry Harrison of Dents Run, a small village 30 miles from Dubois, Pa., was burned to death in a stable. The little fellow had been playing with matches and set fire to the hay.

Samuel McCleary, a former alderman of the Sixth ward, McKeesport, Pa., was instantly killed while riding in a Monongahela traction car in Duquesne. He leaned from the car and his head was crushed by a pole.

Nathaniel Breading Hogg, one of the best known residents of the two cities, and one of the founders of the foundry firm of Totten & Co., died at his home, No. 520 Church avenue, Allegheny City, Pa., aged 84.

At Kansas City, Mo., Miss Orra J. Tallman, of Valparaiso, Ind., died at University hospital, being the twenty third victim of the Chicago and Alton train wreck. She was on the way to the Epworth League convention at San Francisco when injured.

At Beaver, Pa., Miss Nettie French, daughter of Captain Samuel French, died at the dinner table. She had just returned from service at the Presbyterian church. The cause of death was heart disease. She was sister of Miss Kate French, a teacher in the Franklin public school at Pittsburgh.

Colonel W. H. Mable, of Tidewater, Pa., is building about a seven-miles standard gauge road from his lumber mills, near Monroe, W. Va., to Cranberry Summit. The old roadbed of the Roaring Creek and Charleston railroad, built in 1893, at great expense, is being turned into a lumber road.

Major Charles A. Little, a lawyer of Hagerstown, Md., who was defeated for congress last fall on the Democratic ticket, has been appointed colonel of the First regiment, M. N. G., and Captain James C. Porter, of Company C, Annapolis, has been appointed major to succeed him.

At New York the tailors in the sweat shops on the East Side have been called out on strike in accordance with the decision of the garment workers' trade council. It was estimated that 20,000 workers quit Saturday and that Monday 20,000 more refused to work.

In the second figure more elaboration is apparent, and here a special frame is shown or might be hung on a frame as is shown or might be bound with something at the top and be hung on a rod. Variations of this particular treatment are quite easy and consist in perhaps a little undulation at the bottom of the blind for a fringe. By daytime one gets the warm light through the silk and by night the pretty lace is seen.

In the third figure muslin might be used, and it would perhaps not be too daring an innovation to suggest that a double sided cretonne should be inserted in the strip shown. Of course, the cretonne would want very careful choosing in conjunction with the muslin.

At Paterson, N. J., the temporary administrators of the estate of Jacob S. Rogers, the locomotive builder, who left the bulk of his fortune to the Metropolitan Museum of Art in New York, estimate the value of the estate at \$6,000,000. Of this amount the museum will receive \$5,000,000, according to the will.

At Los Angeles, Cal., Colonel Albert Jenkins, a well-known artist, dropped dead on the street. Heart disease was the cause of death. Colonel Jenkins was born in New York 75 years ago. Among the distinguished persons whose portraits he painted were President Abraham Lincoln, General Phil Sheridan and General John A. Logan.

Attorney General Knox will ask Congress to purchase an entire block of ground for the department of justice building. He considers the quarter of a square of ground opposite the treasury building altogether too small for the future needs of the department. Congress has appropriated \$1,000,000 for the structure, but this will not be enough, if the attorney general's plans are carried out.

At Los Angeles, Cal., Colonel Albert Jenkins, a well-known artist, dropped dead on the street. Heart disease was the cause of death. Colonel Jenkins was born in New York 75 years ago. Among the distinguished persons whose portraits he painted were President Abraham Lincoln, General Phil Sheridan and General John A. Logan.

SUMMER DRAPERY.

Some Suggestions For Artistic Window Sash Curtains.

The draperies in the accompanying illustrations are all intended to be made up in muslin or silk and will form a very pleasant contrast to the rather trite and wornout patterns now in use. Beyond a piece of simple muslin or muslin plaid many people seem to be without ideas on this important subject, and important it is, for the first impression of any house is derived from a glance at the windows. A very pretty idea is given in the upper figure. The suggestion is really for a silk blind. A sort of border is cut out round the

DECORATIVE SASH CURTAINS.

COUNTY AND NEIGHBORHOOD

Jefferson county civil war veterans will hold their annual reunion August 29.

John Allison, aged 77, of Cross Creek district, near Wellsburg, is dead.

A trip through the Holy Land is being planned by 800 Presbyterians or western Pennsylvania.

The Berea Oil company is now about to make a test for oil near Salem. The first well will be put down on the Straley farm.

The Jefferson county commissioners estimate that the damage done to the roads in that county by heavy rains this spring will not be less than \$20,000.

Talk is revived of making the B. Z. & C. railway, which runs from Belaire to Zanesville, a standard gauge railway. It is Munroe county's only railroad.

Colored laborers employed in the plant of the Massillon Iron and Steel company, are unable to secure boarding house accommodation. They are living in tents.

In many Massillon churches Sunday money was contributed to the fund being raised by Mayor Wise for the relief of the fire sufferers of Versailles, O. A number of citizens have sought out the mayor to make contributions.

Walter Landrum, superintendent of the Cleveland Trinidad Asphalt company, which has paving contracts at Youngstown, attempted to commit suicide by taking laudanum. It is said that jealousy of his wife prompted the act.

Thieves at Toronto entered four residences Sunday night and made off with several suits of clothes. At one house they took a quantity of canned fruit. A lock on the dwelling of O. Y. Crawford was bent by the robbers, but they failed to gain an entrance. No clues.

I wish to add my testimonial to the genuine merit of Dr. Caldwell's Syrup Pepsi. I have tried many remedies, but have found your Syrup Pepsi superior to all other laxatives and stomach medicines. My wife and I both use it and know it does all that you claim for it.

"Yours sincerely, C. O. KINNE.

"Alma, Kas., Dec. 22, 1900."

PREHISTORIC AMERICA.

According to an Associated Press report, a pre-historic city of immense proportions is said to have just been unearthed on the Navajo Indian reservation between Durango, Colo., and Farmington, N. M. A palace has been found containing, it is said, about 1,000 square apartments, some of them in an excellent state of preservation. Another stone castle contained 100 square apartments. In some of the ruins inspected were found the finest of woods and other relics of a valuable character.

How much truth there may be in the foregoing we have no means of ascertaining. But, in the light of discoveries that have been made from time to time in the west, we would not be surprised to learn that every word of it is true. America presents a fascinating field for archeological research, which has the merit of being almost wholly undeveloped. There is no telling when marvels rivaling those of Nineveh and Troy may be brought to light. Investigations in recent years have progressed far enough to prove that there was a very ancient civilization on this continent and that its history is practically a sealed book. For profitable scientific exploration American scholars should turn their attention to their own land.

AN ANTI-TREATING ORDER.

The Knights of Columbus, in convention at Put-in-Bay, have taken an action that cannot fail to meet with widespread approval and to bring new honor to this strong and useful organization. The Knights, at a recent meeting, unanimously endorsed the sentiment of "no treating," and recommended to state councils and to the national council the adoption of a rule of the order forbidding the vile saloon-treating habit."

Such a rule, adopted and enforced among the Knights, or among members of any other organization, would do more to prevent drunkenness than thousands of temperance addresses or tons of temperance tracts. Unquestionably the treating habit is as bad as the Knights of Columbus say it is. It is probably the foundation of more than half the intemperance existing today. If the great society, whose representatives have spoken, can succeed in abolishing the practice they will do incalculable good. All friends of temperance and morality will unite in wishing them god-speed and success in their worthy endeavor.

A WEST VIRGINIA LYNCHING. Certain people in our sister state, West Virginia, are once more exhibiting an unhealthy disrespect for the law. There was absolutely no excuse

for the lynching of the negro at Elkins. The criminal was in the hands of the authorities and almost certain to receive the full penalty of West Virginia justice, which is generally swift and sure. But the mob spirit ruled, and the thrifty town of Elkins became the scene of one of those deplorable affairs which are blots upon our civilization. The only redeeming feature is that the better class of citizens are indignant and propose to bring the law-breakers to justice. Application of the Ohio law which makes the county where a lynching occurs responsible for resultant damages would doubtless have a wholesome effect in West Virginia.

It is surprising how much misery and woe can be caused by the careless use of that highly serviceable article, the oil can. "Didn't know it was loaded" is a worn-out excuse. It is always loaded, and the long chapters of horrors resulting from bringing it near the fire ought to convince the public of the fact.

The history which makes Admiral Schley out a coward will never be used as a text book. Neither will any volume giving credit for the victory at Santiago to the man who was out of sight of the fight be generally approved by educators.

The Carnegie museum at Pittsburgh has added a hoplophone to its collection. It is said to resemble the East Liverpool board of trade in that it was active once.

The first summer of the century appears ambitious to establish a standing record as the hottest.

OBITUARY.

Mrs. Fannie Connell.

Mrs. Fannie Connell died very suddenly at the home of her son, Andrew Hunter Connell, two miles north of town, yesterday afternoon, from heart trouble, aged 82 years. At 3 o'clock the lady was about the house, and at 4 she was compelled to lie down. She died at 5 o'clock. She is survived by three children, John Nelton, of Cleveland, Samuel George, and Andrew Hunter, at whose home she died. Funeral services will be held tomorrow afternoon at 1:30 o'clock from her late home, and interment will be made at Calcutta cemetery.

Henry M. Smith.

Henry M. Smith, aged 51 years, died at the home of his nephew, Edgar E. Spivey, Calcutta road, last evening at 6 o'clock, after an illness of seven months of tuberculosis. He was a carpenter and unmarried. He is survived by three sisters and two brothers, Mrs. Esther Spivey, Misses Lizzie and Mattie Smith and James R. and Stephen Smith, of Fairview. The funeral services will be held tomorrow morning at 10 o'clock, and interment will be made at Millcreek cemetery, Georgetown.

Mrs. John Grove.

Salem, July 23.—(Special)—Mrs. John Grove, aged 75, died last evening from the effects of a fall received about four months ago while visiting friends in Pennsylvania. She was an old resident of Salem and is survived by her husband and six children. Mr. and Mrs. Grove celebrated their golden wedding a few years ago.

LARGELY JOHNSON'S WORK.

A Cleveland Light Company Assessed \$713,755 More Than Usual.

Cleveland, July 23.—The annual city board of equalization resumed its work of assessing the property of corporations doing business in Cleveland. As a result of information largely brought out by Tom Johnson and his tax expert, Prof. Bemis, the board raised the taxable value of the Peoples Gas Light company, doing business exclusively on the Westside, to \$1,074,000, or an increase of \$713,755 over the return made by the company.

Two lines of men's durable working shirts now on sale. Wise buyers take notice. 50 cent blue polka dot shirts, 33 cents; 40 cent light percale shirts, 25 cents. Erlanger & Co.

FRIENDS AND VISITORS

William Challis is visiting relatives at Sewickley.

O. Ralson has returned from a visit at Atlantic City.

Mr. and Mrs. J. Pope left this morning for a visit at Buffalo.

Squire J. N. Rose was in Salem today, en route to Cleveland.

Miss Cora Crumley left this morning for her home at Salineville.

O. Geiseman, of Wellsville, is in the city, the guest of George F. Brunt.

A. W. Ridge has returned from a visit with his parents at McKeesport.

Mrs. Margaret Smith returned from a visit with her parents at Salineville.

Attorney R. G. Thompson will leave in a few days for an extensive trip up the lakes.

Superintendent R. E. Rayman has moved from Thompson avenue to Grandview.

Mr. and Mrs. William Harker left today for a visit of several weeks at Cockburn, Canada.

Mr. and Mrs. Frank Conkle, of Third street, are spending several weeks on their farm near Park, O.

Miss Kate Dunn has returned to her home in Steubenville, after a three weeks' visit with friends in this city.

William Ormes left yesterday for Detroit, where he will play a concert with the Twin City band of Pittsburg.

Rollin W. Patterson and wife left this afternoon for Port Cockburn, Canada. They expect to be absent for two weeks.

George C. Smith, who has been confined to his home on Ravine street for the past five weeks with fever, is able to be out.

J. N. Logan has arrived in this city from East Palestine, where he is employed. The gentleman is ill with stomach trouble and will remain with his family here until he has entirely recovered.

SOUTH SIDE

CROWD FROM CANTON

Composed of Lutherans, in Possession of Rock Springs Park Today.

The Evangelical Lutheran church of Canton, holds sway at Rock Springs park today. The pleasure seekers arrived about 10 o'clock this morning in two special trains, hauling 23 coaches and carrying about 1,500 people. Many of the visitors remained in the city until this afternoon before going to the park.

No dance was indulged in, but the roller coaster and merry-go-round were greatly in demand and were crowded during the entire day. The crowd was very orderly and the day is being passed quietly. The picnickers paid short visits to many of their friends in this city.

Met With a Mishap.

Frank Lowe met with a slight accident that caused considerable inconvenience while delivering ice on the Southside this morning. When attempting to cross the street car line the coupling pole was broken and it was necessary to borrow another wagon to finish delivering the ice.

CHESTER NEWS NOTES.

The foundation for the new Chester city hall was completed today and the carpenters commenced work at once.

Mrs. Dr. Donehoo is entertaining a number of relatives and friends at her home on Indiana avenue this afternoon.

The carpenters will commence work on the new school building tomorrow, the masons having finished their work today.

The infant child of Mr. and Mrs. Patrick Burns is seriously ill with cholera infantum. Its recovery is very doubtful.

MRS. HANNA MAY LIVE ABROAD.

Threatens She Will Not Take Her Boys Back to America.

London, July 23.—Mrs. Hanna, the divorced wife of Daniel R. Hanna, who, with her children, succeeded in leaving New York July 13 on the steamer Campania for London in spite of efforts to stop their departure and who is staying with friends here, said to a representative of the Associated Press:

"I cannot see why there should be this fuss about my affairs. The court gave me absolute control of my children, and Mr. Hanna consented before leaving Cleveland that I should take the children away. The death of my mother recently and my own illness necessitated my coming abroad."

"When I reached New York I found my hotel surrounded with detectives, bent upon preventing my children leaving. If it is necessary I may send for my horses and make my future home in England, where I will prepare my boys for Eton and Oxford. I am determined to bring up my children myself and they are securely mine in England."

Mrs. Hanna appears worn and nervous, apparently a result of her intense mental strain.

No Moonstruck Maidens Now.

Science has proved that moonlight is more fatal to the complexion than the sun in its splendor, says the New York Commercial Advertiser, and they are now selling in Paris little moonshades made of a double thickness of muslin de sole, with a light fringe, the handles of which fold back like those of the marquises of our grandmothers' time.

Erlangers' are showing the largest and most handsome line of stock ties. Price range from 50 cents to \$1.25.

A MAN'S CLOTHES.

An Authoritative Talk About Dress For Various Occasions.

"The most formal dress a man wears is his evening clothes," says Mr. Fritz Williams in the New York Herald, "and these should be perfectly simple, displaying no jewelry except studs and buttons, and showing no color to destroy the harmony of the black and white combination. Studs should never be anything but pearls and the ordinary little buttons, three for 50 cents,

BLUE AND WHITE COOL GRAY HOME FLANNEL SPUN.

do very well. The crush hat is a part of the uniform, though the silk one may be worn. Watch and key chains should be hidden from view.

"The tuxedo coat belongs to the club and perhaps informally at home. With this coat a derby or straw hat may be worn and, of course, the small black tie. Except with evening clothes the small tie is always undress.

"The black frock coat is the formal afternoon dress, while the gray one may be worn on other occasions, though we could hardly call it informal. At weddings and receptions and wherever ladies are to be the black frock, close-buttoned up, is the correct thing.

"Trousers with this coat are of black, showing an indistinct stripe. With the gray frock coat, which has trousers of the same material, a fancy waistcoat is permissible. Colored shirts do not belong to the frock coat and neither do turnover collars. These both mark the informal dress.

"With morning dress more liberty is allowed, and a man may indulge his fancy for colored shirts, handkerchiefs and ties, though these should be neat and smart. The suit made of loosely woven material, such as homespun, is coolest and most comfortable, two important qualifications. Square cut coats are smartest. With this morning suit go a soft felt hat, usually a fedora, and perhaps a white canvas waistcoat.

"I believe the walking stick belongs to afternoon clothes, though it may be carried at any time. A man doesn't want a stick when going to business, and if he has on evening clothes he wants nothing that will be in his way. The plain wooden stick is not carried. The correct one shows a little ornamentation, never of gold, for young men.

"There is only one yachting dress, but for outing a man may choose whatever he likes. Flannels, however, are by far the most comfortable to wear. White trousers showing a fine dark stripe, a blue coat striped with gray or white and a shirt with a soft plaited bosom are good form. Plaited bosoms, by the way, should always be soft.

"Shoes may be white or tan, generally the latter, and a good hat is the straw alpine. One should observe the same rule with the outing suit as with evening clothes—keep it harmonious and confined to two colors. Blue and white or black and white are excellent combinations, though, as the latter obviously belong to evening dress, it is better to choose the former. Blue is a color universally becoming, and its combination with white produces a particularly cool and fresh effect.

"I mention the alpine hat because the shape suits nearly all men, just as most women find it becoming.

"Trousers of the outing suit should be made with straps at the waist, through which may be slipped a plain leather belt, one not too narrow. This belt must fit snugly around the top, allowing none of the trousers to show above it. In this way the waist assumes the desired trim look. A good idea is to get the belt first and have the loops on the trousers made to fit it exactly."

The cuts from the journal mentioned show a smart outing suit of blue and white flannel and a panama hat and a cool looking morning suit of gray homespun, with gray felt hat and white canvas waistcoat.

Fashions and Fancies.

Costly silver-toned chiming bells are beginning to be a fad for the extensive estates of wealthy people.

A popular hat is a sailor with a rolled up brim trimmed around with wild flowers, with a bow of black velvet ribbon on the left side falling over the hair.

There is nothing particularly novel about the combination of white dotted muslin and narrow black velvet ribbon, but it is certainly most charming.

Black and white striped silk is fashionable again and is considered especially modish as a trimming on linen gowns.

Mercerized linen in pale pink, blue and green makes charming morning gowns, tucked in groups all around the skirt above a shaped bounce headed and finished with a stitched band.

Lawnes, dimities and even ginghams have a place on the list of summer day gowns.

SPENCER ON JOHN FISKE

British Scientist Praises Famous American Historian's Service.

INTERESTING FACTS ON HIS LIFE.

For Twenty-five Years the Great Philosopher Scarcely Left His Library Except For Lecture Tours. His Intimacy With Eminent Men and Methods of Work.

Herbert Spencer, England's famous scientist and philosopher, cabled to the New York Journal the following eulogy on the late John Fiske, great American historian and philosopher:

"Beyond all question, John Fiske did an important service in diffusing, popularizing and elucidating the doctrine of evolution, while giving new illustrations and extension special to himself. His death is a misfortune."

At the time of his death John Fiske, the great historian and philosopher, was just in the act of moving his valuable library and household gods to his new home on Brattle street, near the historic Longfellow house, at Cambridge, Mass.

For the first time in 20 years he was taking a little breathing spell. He had brought his latest work in hand, "The History of the Americas," practically to a close. For the two weeks previous to his death he had been supervising the transfer of his precious books, 30,000 in all, to his new workshop.

The collection of this library had been his dad, his recreation, for 50 years. He had spent upon it over \$150,000. When he was but 12 years old, he had a little library of 200 volumes. That was the nucleus from which has sprung this historical and philosophical library, probably the most complete private collection in this country along these lines. John Fiske's life was spent in his library. For 25 years he had scarcely moved out of it, except when on his lecture tours. Among his books, reaching in double and triple rows from floor to ceiling in the big central room of his house, he found his only recreation.

The only exercise he took was to pace from his little working alcove, walled in by books, out to his conservatory on the south veranda, which also adjoined the library.

It was a pathway 20 feet long. Here was John Fiske's world. It was here that he wrote those delightful "Excursions of an Evolutionist" that have given so many their best ideas of evolution and the wonders of nature. Here his "Destiny of Man" was conceived and executed, as well as that masterly treatise on "Cosmic Philosophy."

In the little alcove, looking out through a vine wreathed window upon a bit of lawn and a row of poplars on quiet side street, most of his histories, too, were written, such as "The Beginnings of New England," "The Discovery of America," "Old Virginia and Her Neighbors," "The American Revolution," "The War For Independence" and many others.

Professor John H. Wright of Harvard university will supervise the publication of the historian's last books.

In the search which will be made for hidden literary treasures many important things are expected to be brought to light. Letters from Darwin, Huxley, Haeckel, Spencer, are known to be tucked away somewhere. These he never showed to anybody, not even to members of his own family, but the intimate terms that he had with all these eminent men abroad are well known. With Herbert Spencer in particular he kept up a correspondence to the last. What inspiring thoughts they exchanged may yet be brought out in a book of letters and memoirs.

But there are other indications of how he kept in touch with those kindred souls of the world of science and philosophy. On some of the shelves nearest to his seat at the desk were whole rows of books of each of those men, not less than a dozen of Darwin's; long lines of volumes of Spencer from earliest to latest editions, and the same of Huxley and Haeckel. John Stuart Mill's numerous contributions to philosophy and Bain's "Emotions and the Will" all show how deeply Mr. Fiske delved into and lived in the philosophical world.

Sitting at this same little alcove desk, where he had worked almost daily for 25 years, he could put his hand on quite a different set of books. They were the historical ones, on Salem witchcraft, on early colonial history of New England, the Quaker colonies, Virginia and French Canada, such books as can be bought in no bookstore now and found in but few libraries. These were his working reference books.

To get to another of his treasure corners he had but to rise and take a few strides across the room to his folklore section. Out of this collection of traditions, from east, west, north and south in America, and from all parts of the old world in French, German, Spanish, Italian, Greek, Polish and Sanskrit, he had gleaned his data and his inspiration for his "Myths and Myth Makers."

All this goes to show why John Fiske's library was his world. Here he would come after his breakfast at 8 o'clock in the morning. He would write until 12 or 1 o'clock. Like lightning he would turn off the big folio sheets in a hand as fine as an engraver's. So clear and precise were his thoughts that his first drafts scarcely ever needed any corrections. He would write 3,000 or 4,000 words at a sitting.

After an hour at lunch he would again take his seat at his desk and either resume his writing or vary the task by correcting proofs from his publishers or perhaps he would take up some new reading or research. Then came the dinner hour in the evening.

He had degrees from several colleges making him a doctor of laws and letters, but he preferred to be called plain Mr. Fiske. His life's motto, which he had lettered over the mantel in his library, was:

"Disce ut semper vici vixit ut eros moriturus." (Learn as if you were always going to live; live as if you were going to die tomorrow.)

With absolutely no exercise it is easy to see how even the strongest constitution would break down under such a regimen. The reason he gave for not taking exercise was that it wearied and distracted his thoughts from his work. He would not let anything interfere with that.

Up to within a few years Mr. Fiske used to work almost as much at night as in the daytime. He would re-enter his study at 8 o'clock and busy himself with reading, translation and research till 2 o'clock in the morning. In those quiet night hours, when nothing could distract him, he thought out his themes. That was why he was able the next morning to sit down and write them out by the thousand words without an error or correction.

He used to be a great lover of his pipes, of which he kept an assortment on a table near his desk. But with increasing corpulence he had to give up this luxury. It seemed to interfere with his breathing.

It was not only in his library that Mr. Fiske worked out his great thoughts. Hanging up in the music room is a framed photograph of a big apple tree at Petersham, N. H., his wife's early home. He occasionally took a summer trip there. Under that apple tree he wrote "Through Nature to God" in two weeks. In this way he turned even his recreation trips to account.

It may almost be said that John Fiske never had a vacation. In his Cambridge home he worked summer and winter. He had no country home to which to go and give himself up to rest and recreation. His persistent activity was a marvel. Some called him a tireless worker, but he wasn't. He felt the strain of his tasks. He was an overworked man. Yet he kept his feelings to himself, so that few even of his own family knew the strain he was under.

It was his intention when he got into his new house on Brattle street to take a little more rest and enjoyment. He had a big library set apart, occupying the entire west end of the upper floor. Walnut bookshelves encircled it on all sides. He would have all his books so arranged that he could put his hand on anything he wanted without any effort.

There he was planning to do the last great works of his life. One was to be a complete history of the United States. Another, and his dearest wish, was to write a life of Christ, the man, in the full light of modern thought and archaeological discovery. This ambition he confided to but two or three of his closest friends.

....STAR BARGAIN STORE....

The Greatest Shirt Waist Sale ever known will begin tomorrow morning and will continue until every Waist is sold. We closed out 100 dozen of the newest Waists at half price and less and we will give our customers the benefit of it. This is your chance to buy 2 waists for the price of one.

ANTI-SCHLEY PLOT?

Interview of Evans Apparently
Indicates One Ex-
isted.

'CONTRACT OF CUBAN SIGNALS,

Which Had Been Arranged For Three
Days, While Before Cienfuegos.
Long Asks, if True, Why He Didn't
Report It to Navy Department.

Washington, July 23.—In regard to the Sampson-Schley controversy, Admiral "Bob" Evans gave out an interview, in which he practically admitted there was a conspiracy among all of the captains of the fleets under the command of Schley and Sampson, except Captain Cook, who commanded the Brooklyn, Admiral Schley's flagship.

Rear Admiral Evans asserts that the signals arranged by Captain B. H. McCalla with the friendly natives to communicate information to the American fleet were not made known to Schley until he had been in Cienfuegos for three days. This explains the cause of Schley's remaining off Cienfuegos so long in search of the Spanish fleet. When it was known to others that it was not there it will be remembered that Admiral Schley was sent to Cienfuegos to blockade the Spanish fleet, which was supposed to be there.

Captain McCalla informed Admiral Sampson of the code, which was communicated by him to the several commanders with the exception of Admiral Schley and Captain Cook aboard the Brooklyn.

The Cubans followed instructions, placing three horses in a row along the shore in the day time and three white lights by night. Schley gave them no heed, for the reason that he had not been advised by Admiral Sampson of their meaning. As soon as Rear Admiral Schley was advised, on May 24, that the Spanish fleet was not at Cienfuegos he left within ten hours for Santiago.

When seen last night Secretary Long refused further to discuss the controversy except to say: "If it is true that the signals were withheld from Schley, why didn't he make a complaint to the navy department at the time?"

TWO MEN KILLED.

They Were Struck by a Train, Near Belmont, N. Y.

Bradford, Pa., July 23.—Charles Homer, son of P. Homer, a well-known farmer, was killed by the cars near Belmont, N. Y. With Ernest Brown, he was hauling hay and the team was being driven across the Erie tracks. A train came along and struck the wagon. Young Homer fell under the wheels of the train and was decapitated. Brown's body was horribly mangled. The railroad people took the bodies of the dead men to Cuba and notified the coroner.

In addition to losing his son, Mr. Homer had another misfortune. A brush fire communicated with his barn and the building was destroyed.

FIERCE HEAT IN THE WEST.

Went as High as 108 at Springfield,
Illinois, and Des Moines,
Iowa.

Washington, July 23.—In Des Moines, Ia., the temperature officially reported Monday was 108; in Springfield, Ills., 108; in Cincinnati, 106, and in Louisville, 106, in each case breaking all past records. In Indianapolis it also was 106, five degrees higher than ever before reported.

In St. Louis it was 106; Omaha, 104; Bismarck, N. D., 104, and Concordia, Kan., 102.

PORTO RICO DAY.

July 25 Date Set For Celebration at Buffalo Exposition.

Buffalo, July 23.—Next Thursday, July 25, will be Porto Rico day at the Pan-American exposition. It is announced that the speakers for this occasion will be Governor Charles H. Allen, of Porto Rico; Senator Joseph Benson Foraker, who framed the Porto Rico bill; Assistant Secretary of the State David J. Hill, representing President McKinley; Senator Knute Nelson, of Minnesota, the resident commissioner of the United States; Senator Filderero Degetan, Hon. John G. Milburn, president of the exposition, and Director General W. I. Buchanan.

July 25 is the anniversary of the landing of General Miles in Porto Rico in 1898. It is on this date also that the Porto Ricans asked to have the present tariff restrictions abolished. President McKinley will be requested by Governor Allen to make proclamation to this effect. A resolution recently passed by the Porto Rican legislature declared Porto Rico to be self-supporting and no danger in need of the revenue for government expense raised by the duty imposed by the Foraker act.

It is planned to make Porto Rico one of the most interesting in the Pan-American calendar of special days.

Uniform Rank, K. of P., in Camp.

Erie, Pa., July 23.—The Pennsylvania brigade, uniform rank, Knights of Pythias, went into camp at Wadamer park, on the lake, under command of General L. C. Thomas, member of the state legislature from Westmoreland county. The camp ends Friday, and there will be a parade on Wednesday, reunion day, when members of the order will be here from northwestern counties. There were 800 men in camp.

IN UNSETLED CONDITION.

Was the Speculative Mind, as Manifested by Stock Market Opened on Monday.

New York, July 23.—The unsettled condition of the speculative mind was clearly manifest when the stock market opened Monday morning with a fresh batch of unfavorable news regarding the corn crop, and affecting also the chances of the spring wheat crop. The grangers and Pacifics and southwesterners were all actually depressed and heavy blocks of shares of each of those roads were thrown upon the market, opening sales reaching as high as 10,000 shares for Union Pacific. There was effective support offered at the opening low support offered at the opening low level. But the incipient rally was checked when the corn market opened and the excited condition of affairs there was observed. The present market is largely influenced by the close proximity of the brokers in stocks and the brokers in grains, the stock exchange being in temporary quarters on portion of the produce exchange floor, with only a half wall dividing them. Not only are the proceedings in each exchange to be seen from the floor of the other, but brokers are constantly passing from one to the other and operating on both. This personal contact exaggerates the sentimental effect of the grain market on the stock market. There were occasional rallies on the down grade, due to the covering of board room bears, who took quick profits. The loaning rates for stocks does not indicate a widely extended short interest beyond the in and out transactions by the board room traders. The bearish operators are in constant apprehension of some maneuver of announcement by those interested in supporting the market which would cause a sudden rally and cost the shorts heavy losses. There was no evidence of any such maneuver Monday, the market yielding easily to every attack. But there was a general disposition on the part of the traders to close up their contracts over night, and the demand from this source caused a substantial rally in the late dealings, running from 1 to 3 points in the leaders. At the low level the throats upon Saturday's prices were as follows for the leading stocks: Rock Island, 7½%; Missouri Pacific, 7%; Union Pacific, 6%; St. Paul, 6%; St. Louis Southwestern preferred, 6%; Atchison, 4½%; St. Louis and San Francisco second preferred, 3%; Kansas and Texas preferred and Denver and Rio Grande preferred, 3½% each. There were many other losses of 1 to 3 points at other points of the list, and Baltimore and Ohio was down 4½ and New York Central 3%. The United States Steel stocks moved narrowly all day. The closing was quiet and steady, with a good part of the rally maintained.

ARMY IN PHILIPPINES TO BE REDUCED.

Manila, July 23.—The conferences between Adjutant General Corbin and General Chaffee, recently held here, will probably result in radical economical and administrative reforms in the army occupation. It is estimated that the total cost of maintaining the American army in the Philippines can be reduced by 60 per cent in the course of one year. The principal change will be the reduction of the present force to between 20,000 and 30,000 men.

WEATHER FORECAST.

Ohio—Fair today and tomorrow; probably warmer tomorrow in northern portion; light north to east winds.

Western Pennsylvania—Partly cloudy today. Tomorrow fair; variable winds.

West Virginia—Partly cloudy today and tomorrow; continued warm; variable winds.

THE MARKETS.

MINISTERS DECIDED

Upon Indemnity China Must Pay Commissioner Rockhill Cables.

SETTLEMENT WAS REACHED.

In the Pekin Negotiations—The Interest Was Fixed at Four Per Cent. Principal to Be Paid Three Hundred and Thirty-Seven Million Dollars.

Washington, July 23.—The ministers at Pekin have agreed upon a plan for the payment of the indemnity and the extinction of the debt created thereby. China is to issue bonds for 450,000,000 taels (about \$37,000,000), which are to bear 4 per cent interest. This debt will hang over China for 38 years after the process of amortization begins.

Special Commissioner Rockhill communicated this very welcome news in a message received and made public by the state department. He gave no details, but the department takes it for granted that the agreement is on one of the plans heretofore discussed. He mentions the sum, the rate of interest and the date when the debt is to disappear.

There is only one plan on file with the department in which the figures he uses occur. This plan provides for the beginning of the process of amortization on Jan. 1, 1902, by the payment of 23,000,000 taels. The first year 18,000,000 goes on the interest charge and only 5,000,000 toward the payment of the principal. Each year the 23,000,000 taels are to be paid, but the interest charge being smaller the payment on the principal will be larger.

If China makes no default the bonds will all be retired in 1940. It is the understanding that China will remit the interest and part payment on the bonds to each bondholder directly and not go to the expense of establishing an international agency, as has been proposed.

The United States receives \$25,000,000 worth of these bonds.

MRS. KRUGER'S BODY RESTS.

Buried at Pretoria—Kruger Much Depressed—Sympathy From America.

Pretoria, July 21 (Sunday).—Mrs. Kruger, wife of former President Kruger, of the South African republic, who died Saturday last of pneumonia, after an illness of three days, was buried here this afternoon.

Amsterdam, July 23.—Former President Kruger, of the South African republic, is very depressed as the result of the death of his wife, but his health is unaffected. On the contrary, he has thrown himself into his work with more than his usual energy.

New York, July 23.—Theodore M. Banta, secretary of the Holland society, has sent the following cablegram to President Kruger:

President Kruger, The Hague.

Sincere sympathies. Numbers six, twenty-four, twenty-five, twenty-six.

Signed—Holland Society, Starin, President; Banta, Secretary.

The quotation from the Bible is as follows:

"The Lord bless thee and keep thee; the Lord make His face shine upon thee and be gracious unto thee; the Lord lift up His countenance upon thee and give thee peace."

WAS FAVORABLE TO FOSBURG.

His Brother's Testimony Apparently of Value to the Defense.

Pittsfield, Mass., July 23.—James Fosburg was called as a witness for the prosecution in the trial of his brother, Robert S. Fosburg, for the murder of their sister, May Fosburg. It apparently left no doubt that his explanation of the reason why he did not know that burglars had been in the house and killed his beautiful sister was truthful and straightforward. His testimony greatly increased the faith of the defense in the ultimate acquittal of his brother.

The expected attempt of the government to delve into the question of family quarrels did not materialize, and James Fosburg's explanation of his attempt to get a number of doctors, his return to the death chamber and his ministrations to his parents created a favorable impression in the minds of all who listened to him.

Nerve Slavery.

It is present-day conditions—heaping burdens of work upon the nervous system that tells the story—premature breaking up of health. It tells why so many men and women, who so far as age in years is concerned, should be in the prime of health, find themselves letting go of the strength, the power, the vitality they once possessed. It is because great motor power of the body, nerve force, is impaired. Every organ depends upon its controlling power just as much as the engine depends upon the steam to put it into action. An engine won't go without steam. Neither will the heart, the brain, the liver, the kidneys, the stomach act right without their proper nerve force supply. Let any organ be lacking in this essential and troubles begin—some of them are:

Throbbing, palpitating heart.

Sleepless nights.

Sudden startings.

Morning languor.

Brain fag.

Inability to work or think.

Exhaustion on exertion,

Flagging appetite.

Digestion slow.

Food heavy.

Easily excited, nervous, irritable.

HOME AFFAIRS.

Brief Notes of a Personal Nature And of Matters About Town.

Shipped to Conneaut—The household goods of W. D. Job were yesterday shipped to Conneaut.

Defeated Toronto Club—The West End Athletics have returned from Toronto, where they defeated the base ball club of that city by a score of 15 to 10. Hits, Athletics 22, Toronto 15.

In Business for Himself—W. A. Wilkerson, an expert barber of East Liverpool, has taken charge of the shop in the Carson block, on Market street, and will conduct a first-class place.—Toronto Tribune.

Fighter Hurt—A fight is said to have taken place near the corner of Sixth and Franklin streets yesterday afternoon, in which one of the participants received a bad cut on the head. No arrests have as yet been made.

Hay Party at Hookstown—The National Social club is arranging for a large "hay party" to be held at Hookstown, Pa., during the coming week. It is intended to have the affair eclipse anything of its kind ever brought off in this city and the preparations are extensive. Announcement of the date will be made as soon as it is determined.

The Lutherans' Picnic—Members of St. John's Lutheran church and Sunday school to the number of 300 or 400, spent a delightful afternoon and evening at Rock Springs yesterday. The coming reunion at New Castle will be largely attended by members from this city. It is to be a reunion, not of German Lutherans as has been stated, but of all Lutherans.

In Search of Health—Alfred Cartwright, of the West End, left last evening for Mt. Clemens, Mich., where he will spend a month in the hope that his health may be benefited. Mr. Cartwright has been in bad health for several weeks and has been resting, but no improvement is noticeable, and the doctors advised him to spend a month at the northern resort.

THE SURPRISE CLOTHING HOUSE

Engravings Going Up In Price. Quite a remarkable fact is the extraordinary price engravings are now reaching, says the London Review. A few years ago \$250 was thought a high price for a good mezzotint or engraving after Sir Joshua Reynolds. Now as much as \$5,000 has been paid on more than one occasion, and from \$2,000 to \$2,500 is the ordinary value of a good specimen.

FOUR PERSONS PERISHED.

Mother and Three Children Victims of a Fire—The Father Was Burned.

Pittsburg, July 23.—A whole family was burned in a Penn avenue tenement fire here. The mother and three children are dead and the husband was badly burned. The explosion of an oil can was the cause of the fire. Following is the list of casualties:

Dead

Mrs. Sophia Ratzka, aged 30 years, horribly burned about the entire body; mother of the children.

Viola Ratzka, aged 8 years, eldest daughter; burned and smothered by fame and smoke.

Kashner Ratzka, boy, aged 5 years, smothered and burned.

Wabock Ratzka, boy, aged 2 years, smothered to death; burns not fatal.

Injured

Francis Ratzka, the head of the family, was badly burned and was removed to the West Penn hospital. It is said he will recover. Later he left the hospital.

From what can be learned, Mrs. Ratzka was preparing breakfast in her apartments on the second floor of the tenement house in the rear of No. 2715 Penn avenue. The fire in the kitchen stove was not burning as quickly as she desired, and she took an oil can and poured some of the oil on the fire. In a moment a blaze sprang from the grate of the stove and ignited the oil in the can and an explosion occurred.

The can was torn to fragments and the burning oil was thrown over Mrs. Ratzka. The husband of the woman was in the kitchen at the time, as were also two of the children. In a few minutes the entire room was a mass of flame.

It is said that when the mother and the two children caught fire the mother ran into the room where the other child, Wabock, was sleeping. In her terror the woman came too close to the child's bed and the sheets caught fire, burning the little one to death.

In the meantime the father was trying to save his family. He first went to his wife's assistance, but she was so terrorized that he could do nothing with her. After trying to save all and seeing that it was a useless task, Ratzka jumped from the window, a distance of 12 feet. By this time the fire department had arrived and when Ratzka saw that he had left his family to perish in the flames his agony knew no bounds. He tried to break into the house again, but the men prevented him.

After some hard work the firemen succeeded in extinguishing the flames. They then went inside and found the bodies.

HE'S A WONDER!

PROF. FRANCIS HUNT.
Of Pittsburg.

. Palmist.

—AND—

. Clarivoyant.

Appreciating the fact that there are many of the best citizens who are only too anxious to consult a good, reliable medium, if they first felt positive that in spending their money they would receive full value in return, therefore Prof. Hunt gladly makes the following honest offer: "I hereby solemnly swear and guarantee to give each and every patron full and complete satisfaction, and after I am finished with my reading, and you are satisfied and do not find me superior over other mediums that have visited your city (you be full judge), pay me not one penny."

IS THAT NOT HONEST? COULD ANYTHING BE FAIRER? Prof. Hunt's ancestors were all powerful and reliable mediums, and the old family name of Hunt is as well-known and held as sacred to the believer in the spirit power as is the name of Shakespeare in the realms of literature.

Therefore, this wonderful young man has received the rich and golden inheritance and combined knowledge which has been handed down from father to son for generations. He asks no questions, but answers sealed messages in a trance, and before you can utter a solitary word HE TELLS YOUR NAME IN FULL, names of enemies, friends or rivals; tells whether husband, wife or sweetheart is true or false; tells you how to gain success in love, courtship, marriage, divorce, health, business, law suits, speculation and transactions of all kinds. In fact, no matter what may be your hope, fear or ambition, come to this gifted man and find help. If you are out of work and discouraged, don't blame McKinley or find fault with the universe, the trouble may be right in yourself or your surroundings. Do you find, with all your natural gifts and talents, that you are baffled, discouraged and unsuccessful? If so, come and be advised and find out the cause of your bad luck, and how you can change your bad conditions to those of success, joy and happiness.

HE HAS HELPED OTHERS,
WHY NOT YOU?

If you are going to see a clairvoyant

WHY NOT SEE THE BEST?

Especially when you can do so at a moderate cost. You want a medium who will make good his promise—one who legally guarantees success in everything he undertakes. You want a medium of deep learning, and above all, you want a medium who will deal honestly with you. These are the motives of Prof. Hunt. HE CHANGES YOUR LUCK AND GIVES YOU SUCCESS THAT WINS SURE.
